THE HANDIEST PAD FOR BUSINESS MEN

—IS—

THE UTILITY.

The advantages of
this Pad are many.

A leaf may be de-
tached and still be re-
placed without any
trouble.

The leaves may be
turned back as freely
as in a note book, with-
out detaching, and as
they are not pressed
back or laid aside, no
blotting is necessary.

For sale by all Stationers. Manufactured by

THE COPP, CLARK CO. (LTD.) - TORONTO.

*MY aim, when designing the decoration for
a Presentation Address, is not merely
to attract the outward eye, but also to appeal
to the mind; to illustrate and give additional
point to the subject matter, by means of
symbolical ornament, appropriate emblems and
miniature pictures are encrusted in the initials,
or woven into the borderings; so that every
design derives a peculiar value, from the fact
that it could not, without absurdity, be repro-
duced on any other address.*

WILKINSON TRUSS

For safety, comfort and durability it cannot be beaten, and is warranted to hold any reducible hernia. This Truss, on account of the pivot point, adapts itself to any motion or position of the body, so that when a proper fit is secured its presence is never known. There is not a truss in the market giving anything like the satisfaction of the WILKINSON TRUSS.

Oxford University Press

NEW ILLUSTRATED EDITION

OF

THE OXFORD BIBLE FOR TEACHERS

Containing many new features, and a series of upwards of sixty full-page plates illustrating Biblical antiquities.

Sir William Dawson, C.M.G., LL.D., Principal McGill University, Montreal, Que. :

"The Oxford Helps I have long used with advantage, and the new edition, while retaining the reasonable conservatism of the old, has been greatly extended and improved, especially by the facts respecting the testimony of Modern Discoveries in favor of Bible history. The illustrations are quite a new feature and serve to bring before the eye much of the actual monumental corroboration. Almost every one of the illustrations might form the subject of a good lesson on Bible history."

Sunday School Times, Phila., June 9th, 1894:—

"The 'Oxford' Bible has won so great success, and now presents such improvements, that it will keep its firm hold. The publishers of these Teachers' Bibles deserve unstinted praise for their appreciation of the needs of their constituents, and for their enterprise in supplying these needs."

The Wesleyan:—

"An invaluable contribution to the literature relating to Biblical studies."

The Christian Guardian, Toronto:—

"Well adapted to be specially helpful to all ministers, teachers and Bible students. We can cordially recommend it to teachers and preachers."

Canadian Methodist Quarterly:—

"A perfect treasury of everything needed for the exact study of the English Bible exceedingly full of very rich material."

Toronto Globe:—

"An eminently comprehensive hand-book."

Montreal Witness:—

"Contains a great amount of useful information."

American Bookmaker:—

"No such complete and accurate guide to the study of the Scriptures has ever before been published."

Editor's Introduction.

FOR forty-seven years THE CANADIAN ALMANAC has been issued without a Preface, and we feel some diffidence in now making a change. For some years past we have noticed that subscribers have been ignorant of the existence of portions of the ALMANAC that the publishers had expected would be read by all their friends. This is owing to the fact that most men buy the ALMANAC for some particular department in which they are interested and never give thought to the remainder of the book. The publishers want their subscribers to enjoy all the good things prepared for them, and it is for this end that this introduction is written.

The first thing that will strike the reader will be the illustrations scattered through the book. This is in accordance with the spirit of the age, which demands pictures everywhere. Our plates have been specially prepared for the ALMANAC. The Calendar designs are by a clever young Toronto artist now seeking his fortune across the line.

The article on the Procedure of the Canadian House of Commons, by Dr. Bourinot, will be found instructive. The publishers were fortunate in securing a contribution from this eminent author on a subject on which he is an admitted authority.

The series of articles on the Defences of Canada are appropriate in these days of wars and rumors of wars. They comprise the Royal Military College, Her Majesty's Regular Forces in Canada, H. M. Ships on Our Coasts, Fortifications of Esquimalt, and the Fisheries Protection and Marine Service of Canada; also a *resumé* of the article on the Canadian Flag published in last year's ALMANAC. In connection with this, the article on the Sault Ste. Marie Canal, by J. J. Kehoe, Esq., will be found of interest. Along this same line is a sketch of the British possessions throughout the world, with Map of the World Showing British Territory.

Other points to which attention is directed are, the political division of the House of Commons and Ontario House of Assembly, the Ontario Law List revised to date, the article on Life Insurance, and the Remarkable Occurrences of 1893-4.

The Editor cannot close without expressing his grateful thanks to the many kind friends throughout the Dominion who have so readily helped him with the annual revision of the ALMANAC; without their aid, so freely given, the production of this book in its present complete form would be almost impossible.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec and Winnipeg, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada. For Latitude and Longitude of Observatory see page 22.

NOTE.—Standard times* are given in all columns headed Toronto, Quebec and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m W. It passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The seven last columns are calculated for Lat. 45°, Long. 4h. 46m. W., but will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	−5' 10"	−3' 32"	−1' 49"	0' 00"	+1' 55"	+3' 55"	+6' 3"	+8' 17"	+10' 39"
2nd Correction for each minute of latitude	+1".6	+1".7	+1".8	+1".9	+2".0	+2".1	+2".2	+2".4	+2".5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'..1st correction = −3' 32"	2nd correction + 1.7 × 20 = + 0' 34"
" " 47° 40'.. " = + 3' 55"	" " + 2.1 × 40 = + 1' 24"
" " 45° 10'.. " = 0' 0"	" " + 1.9 × 10 = + 0' 19"

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
Constant	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s
Difference for 10' of latitude.	5 54 31	5 54 21	5 54 11	5 54 1	5 53 50	5 53 39	5 53 27	5 53 16	5 53 3
	−1.7	−1.7	−1.7	−1.8	−1.8	−2.0	−1.8	−2.2	

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (...) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

"Behold the young, the rosy spring
Gives to the breeze her scented wing,
While virgin graces warm with May,
Fling roses o'er her dewy way."

"And woods were brighten'd, and soft gales
Went forth to kiss the sun clad vales."

"Beside the young
"While the breeze her secret
"The virgin's warm
"Mind roves o'er her heart."

NATURAL RESOURCES OF CANADA.

The natural resources of Canada are her forests, her farms, her fisheries, and her minerals.

The forest wealth of the country is very great. The forests formerly extended in an almost unbroken stretch from the Atlantic Ocean to the head of Lake Superior, a distance of 2,000 miles. The great plains of the Northwest have always, within the memory of man, been sparsely timbered, but on the Pacific slopes of the Rocky Mountains down to the shores of the ocean there are mammoth trees that can compare favourably with the growth of any region on the globe.

Some Facts About Canada.

The Dominion of Canada has an area of about 3,315,647 square miles, or, including its water surface, 3,456,383 square miles, is about 3,500 miles from east to west and 1,400 miles from north to south, and consists of the provinces of Ontario and Quebec (formerly Upper and Lower Canada), Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island and the North-west Territories, (which latter contain the vast territory formerly under the control of the Hudson's Bay Company). It, therefore, comprises the whole of the northern half of North America, with the exception of the United States Territory of Alaska on the west, and Labrador, which is under the control of the Government of Newfoundland, on the east. It is bounded on the north by the Arctic Ocean, on the west by the Territory of Alaska and the Pacific Ocean, on the south by the United States and on the east by the Atlantic Ocean.

THE CHEESE AND BUTTER INDUSTRY IN ONTARIO.

The Dairy industry in Ontario is fast becoming of large proportions. The annual produce is now about 90,000,000 lbs. of factory cheese, 3,000,000 lbs. of creamery butter, and about 50,000,000 lbs. of dairy butter. The following table shows the factory cheese produced in Ontario for the ten years 1883-1892:

Year.	No. of Factories.	Cheese Made.	Value of Cheese.	Value of Cheese per lb.
		Lbs.	\$	Cents.
1883.....	635	53,513,032	5,589,339	10.45
1884.....	751	66,939,573	6,995,889	10.46
1885.....	752	71,209,719	5,781,569	8.12
1886.....	770	63,721,621	5,893,818	9.25
1887.....	737	65,638,656	6,918,915	10.54
1888.....	737	65,299,751	6,031,470	9.24
1889.....	784	72,592,847	6,787,619	9.35
1890.....	817	79,364,713	7,189,957	9.06

1892.....	856	93,848,948	8,959,939	9.55

From the above table it will be seen that the quantity of cheese made has nearly doubled in ten years, and now forms about three-fourths of the total amount of cheese exported from the Dominion.

The next table shows the exports of Canadian made dairy products:

The next table gives similar information about the exports from the United States, from which it will be seen that while the amount of Canadian cheese exported is increasing rapidly, American cheese is gradually going behind.

The United States is Canada's great competitor for the British market, but while we lead all other countries in the matter of cheese, we stand seventh on the list of countries exporting butter to Great Britain.

The following table shows the average prices of butter in the Toronto wholesale market, as recorded in the daily papers:

First of Every Month.	June '92 to May '93.			June '93 to May '94.

It will be seen from the above that the price of Creamery butter is about the same as that obtained for Danish butter in Great Britain, so that the Canadian butter exported must have been of a rather low grade. If all the Dairy butter made in Ontario in 1892 had been of the quality of Creamery butter it would have been an additional \$2,000,000 in the pockets of Ontario farmers. Another important fact is that while the price of grain has decreased over 30 per cent. in ten years, dairy products have decreased less than 6 per cent.

The following table shows the average market prices of fall wheat, spring wheat, barley and oats in Ontario for the second half of each year from 1883 to 1892 inclusive; also the average prices for factory cheese and creamery butter for the same years:

	Fall Wheat, per bush.	Spring Wheat, per bush.	Barley, per bush.	Oats, per bush.	Factory Cheese, per pound.	Creamery Butter, per pound.
	Cents.	Cents.	Cents.	Cents.	Cents.	Cents.

1892.....	70.7	67.8	41.3	30.8	9.55	20.59

Strange to say, Denmark, which has an area of less than one-half that of Ontario and a population about the same, exports to Great Britain nearly ten times as much butter as Canada, and not only that, but the average price obtained for Danish butter was 24.4 cents per pound, while that from Canada averaged 18.7 cents per pound, thus showing that *quality* rules the British market. Canadian farmers should ponder these facts; a difference of six cents per pound would have meant an additional \$400,000 for our butter sold in Great Britain in 1892.

THE FRENCH TREATY 1894.

SCHEDULE A.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and the President of the French Republic, being alike desirous of facilitating and extending commercial relations between Canada and France, have resolved to conclude an agreement to this end, and have named as their plenipotentiaries, that is to say:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland: His Excellency the Marquess of Dufferin and Ava, a peer of the United Kingdom, member of the Most Honourable Privy Council, Vice-Admiral of Ulster, Warden and Keeper of the Cinque Ports, Constable of the Castle Dover, etc., Her Ambassador Extraordinary and Plenipotentiary to the Government of the French Republic, and Sir Charles Tupper, Baronet, High Commissioner for Canada in London.

The President of the French Republic: Son Excellence M. Jules Develle, Deputy and Minister for Foreign Affairs, and Son Excellence M. Siegfried, Deputy, Minister for the Department of Commerce, Industry and of the Colonies.

Who after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following articles:

ARTICLE I.

Wines, sparkling and non-sparkling, common soaps, savons de Marseille (Castile soaps) and nuts, almonds, prunes and plums of French origin entering Canada shall enjoy the following advantages:—

1. Non-sparkling wines gauging 15 degrees by the centesimal alcoholometer or less, or according to the Canadian system of testing containing 26 per cent. or less of alcohol, and all sparkling wines shall be exempted from the surtaxe or *ad valorem* duty of 30 per cent.

2. The present duty charged on common soaps, savons de Marseille (Castile soaps) shall be reduced by one-half.

3. The present duty charged on nuts, almonds, prunes and plums shall be reduced by one-third.

ARTICLE II.

Any commercial advantage granted by Canada to any third Power, especially in tariff matters, shall be enjoyed fully by France, Algeria and the French colonies.

ARTICLE III.

The following articles of Canadian origin imported direct from that country accompanied by certificates of origin shall receive the advantage of the minimum tariff on entering France, Algeria or the French colonies:—

Canned meats.

Condensed milk, pure.

Fresh water fish, eels.

Fish preserved in their natural form.

Lobsters and crayfish preserved in their natural form.

Apples and pears, fresh, dried or pressed.

Fruits preserved, others.

Building timber in rough or sawn.

Wood pavement.

Wood pulp (cellulose).

Extract of chestnut and other tanning extracts.

Common paper, machine made.

Prepared skins, others, whole.

Boots and shoes.

Furniture of common wood.

Furniture other than chairs, of solid wood, common

Flooring in pine or soft wood.

Wooden sea-going ships.

It is understood that the advantage of any reduction of duty granted to any other Power on any of the articles enumerated above shall be extended fully to Canada.

ARTICLE IV.

The present agreement having received the sanction of the Parliament of Canada and of the French Chambers shall be ratified and the ratification shall be exchanged at Paris as soon as possible. It shall come into operation immediately after this formality has been accomplished, and shall continue in force until the expiration of twelve months after either of the contracting parties shall have given notice of their intention of terminating the same.

It is agreed likewise that if non-sparkling wines gauging 15 degrees at the most, or sparkling wines, become subject later on to an increase of duty in Canada, the French Government by denouncing the present agreement could terminate its operation immediately without waiting until the expiration of the twelve months delay provided for above.

In witness whereof, the respective plenipotentiaries have signed the present agreement and affixed thereto the seals of their arms.

Done in duplicate, at Paris, this 6th day of February, 1893.

CANADIAN BANK NOTES.

Under the new Banking Act, which went into effect 1st July, 1891, the Bank Notes of any Canadian Bank are redeemable at par in any part of Canada. Previous to this it was the custom of the Banks in one Province to charge a small commission for cashing the Notes of Banks in distant Provinces; this is now done away with.

Another important point is that under the new law it is impossible for the holders of Notes of failed or suspended Banks to lose by them, for a fund has been established, and is now in the hands of the Government at Ottawa, amply sufficient to pay the notes of any suspended Bank. This fund, which is known as the "Bank Circulation Redemption Fund," was formed by a contribution from every Bank, graded according to circulation, and should it fall below a specified amount, owing to the payment from it of the notes of a failed Bank, the other Banks of the Dominion, must again contribute to

make up the deficiency. In fact, strange as it may appear, such notes would be very likely to go to a premium at once, as by law they bear six per cent. interest from the time of the Bank's suspension until the day named for payment.

The amount of notes of any bank in circulation at any time shall not exceed the amount of its unimpaired capital, subject to penalties varying with the amount of such excess.

The payment of notes issued by any bank for circulation shall be the first charge on its assets in case of insolvency, any amount due to the Dominion Government shall be the second charge, and any amount due to any Provincial Government shall be the third charge.

Any bank, when making payment, is compelled, if requested, to pay the same, or part thereof, not exceeding \$100, in Dominion notes, for \$1, \$2 or \$4 each.

HER GRACIOUS MAJESTY QUEEN VICTORIA.

THE QUEEN.—Victoria, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, Empress of India. Her Majesty was born at Kensington Palace, May 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle King William IV.; was crowned June 28, 1838; and married Feb. 10, 1840, to his late Royal Highness Prince Albert, PRINCE CONSORT, who was born August 26th, 1819, and died December 14th, 1861. Her Majesty is the only child of his late Royal Highness Edward, Duke of Kent, son of King George III. The children of Her Majesty are—

Her Imperial Majesty Victoria Adelaide Mary Louisa, PRINCESS ROYAL, Empress Frederick of Germany, born Nov. 21, 1840, and married Jan. 25, 1858, to Frederick, Crown Prince of Prussia, afterwards (March to June, 1888) second German Emperor, who died June 15, 1888, and has issue four sons, the eldest William, the present German Emperor, and four daughters.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present only maintain a garrison at Halifax, and a naval establishment there and on the Pacific coast.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Queen, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, but is practically embodied in the present Militia Act, 49 Vic., chap. 41, (Revised Statutes, 1886). By it the militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:—

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Judges, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and

officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The number of men to be trained and drilled annually is limited to forty thousand, except as specially authorized, and the period of drill is to be sixteen days and not less than eight days each year

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service is three years.

The Establishment of the Permanent and Active Militia of the Dominion, for the year 1894-95, is as follows:

THE PROCEDURE OF THE CANADIAN HOUSE OF COMMONS.

BY DR. BOURINOT, C.M.G., F.R.S.C., CLERK OF THE HOUSE OF COMMONS
IN CANADA.

Opening of Parliament—The Speech—Address in Answer—Petitions—Votes and Proceedings—Orders of the Day—Questions put by Members—Rules of Debate—Motions and Amendments—Divisions—Previous Question—Public and Private Bills—Committees of Supply and of Ways and Means—The Clerk and Other Officers of the House—Respect for the Chair—Importance of Parliamentary Rules and Usages.

I propose in this paper to give a brief review of the principal methods of business in the most important legislative body of the Dominion—a review, in fact, of those parliamentary usages which, as a rule, practically distinguish the legislative assemblies of all the provinces of Canada. A few minutes before three o'clock in the afternoon of the day for which the Houses have been summoned, the Commons assemble in their Chamber, and the Speaker, who is elected at the commencement of a new Parliament, formally takes the chair. The Sergeant-at-Arms soon announces a message from His Excellency the Governor-General amid a deep silence, and the Speaker replies: "Admit the messenger." The Sergeant-at-Arms shoulders the mace, a richly gilt instrument, surmounted by a crown and surrounded by beavers, which always lies on the table in front of the Speaker and Clerks, whilst the House is in actual session, and admits a gentleman-dressed in official costume, and carrying a small ebony stick, as the insignia of his official standing as Gentleman-Usher of the Black Rod. He bows solemnly to the Speaker (who takes off his cocked hat) and requests, in the name of His Excellency, the presence of the Commons in the Senate Chamber. When he has made this request, once in English and again in French, he bows gracefully and backs out of the chamber in accordance with official etiquette. Then the members leave their places, the Speaker and the Clerk and Clerk-Assistant put on their cocked hats, the Sergeant-at-Arms again shoulders the mace, and the whole assembly proceeds to the bar of the Senate chamber.

The Speaker approaches the Bar, and the Governor-General takes off his hat in recognition of the presence of the Commons of Canada in response to his constitutional request. Then His Excellency reads his Speech, in which the ministry of the day briefly set forth the programme of the session. When the Governor-General has concluded reading his English copy of the Speech, he repeats the same in French, in pursuance of that constitutional usage, which preserves the use of the French language in all our legislation affecting the province of Quebec. When the speech is finished, the secretary of the Governor-General hands a written copy to the Speaker, who then bows and retires to the chamber of the Commons, where he resumes his seat.

Parliament having been formally opened, the House is at length in a position to go on with the business. The first proceeding is almost invariably the presentation to the House of certificates and reports relating to elections which have been held during the recess, and then new members are introduced and take their seats, the necessary oath having been previously taken in the Clerk's office. Leading members of the government and opposition generally introduce their respective friends,

who are loudly cheered by one party or the other. All members must subscribe to the necessary oath before they can take their seats and vote in the House.

When the election cases have been disposed of, it is the practice for a member of the government to present a bill, and have it read a first time *pro forma*—a time-honoured constitutional usage—"in order to assert the right of the Commons to deliberate, without reference to the immediate cause of summons." Then it is usual for the Speaker to rise and state that when the House attended His Excellency in the Senate chamber, he had been pleased to make a speech to both Houses of parliament, of which, Mr. Speaker adds, he had "to prevent mistakes obtained a copy." The reading of the Speech is almost invariably dispensed with; and then, on motion of the premier, it is ordered to be taken into consideration immediately or—the usual practice—on a future day. Little business is done, as a rule, on the first day of the session, beyond the presentation of reports of departments and other public papers of interest. Then the House adjourns, always on motion of the premier, or other member of the government in his absence.

The House meets every day at three o'clock, unless, as it happens often near the close of the session, it is called for an earlier hour with a view of facilitating public business. At that hour the Speaker, preceded by the Mace, comes into the chamber, and the first proceeding after prayers is the opening of the doors, unless it is necessary to discuss some question of privilege or other matter which it is advisable to consider before the admission of the public. The first proceeding as soon as the doors are opened, and the public has been admitted to the galleries, is the presentation of petitions. The valuable privilege of petitioning, so dear to the heart of every British subject, is a very tame and monotonous proceeding. A member rises in his place, and confines himself to a simple statement of the contents of the petition, which is taken by the page to the Clerk's table, whence it is sent to an office, where it is carefully read to see that it does not infringe any rule, and then endorsed with the name of the member presenting it, and a brief statement of its subject-matter. The petitions presented on one day are brought up to the table two days subsequently, and are read and received when they do not contain any objectionable matter. It is very rarely that petitions are read at length, for the rule is to read only the endorsement, which explains its character. Every session large numbers are presented on some subject which is engaging at the time much public attention. Petitions are constantly thrown out on account of informality. For instance, it is irregular to ask for grants of money or any pecuniary compensation, on the wise principle which allows the government only to initiate money votes. Any petitions containing offensive im-

putations upon the character or conduct of parliament or the courts of justice, or other constituted authority, will not be received. One or more of the names to a petition must always be appended to the same sheet on which it is written. A paper assuming the style of a declaration, an address of thanks, or a remonstrance only, however, cannot be received, though it is entered on the journals, with the reasons for its rejection.

The answer to the Speech is the first important business that is taken up immediately after the commencement of the session; two members supporting the administration, generally the two youngest (that is to say, the most recently elected) are chosen to move the address, which is introduced in the shape of a resolution, containing a number of separate paragraphs in answer to the Governor-General's Speech. The mover and seconder always appear in England in uniform or full dress for that purpose, but the same custom is not observed here as a rule. As the speakers are generally new to the House, they are always heard with great forbearance and attention, and those prominent members of the government and opposition who follow the debate seldom fail to pay some compliment to the maiden efforts of the speakers. It is competent for any one at this stage to move an amendment to the address, but this is now only done in rare cases. It is considered more courteous to the representative of the sovereign to pass the address as a matter of course, especially as it is framed to avoid opposition. It is also felt to be very inconvenient to discuss important questions at a stage when the House has not before it all the papers which it requires for its information. In a very critical condition of public affairs, however, a strong opposition which believe it has the sympathy and support of the country, will probably move a motion of direct want of confidence in the government of the day, but that is an exceptional state of things, and only proves the usage which obtains.

When the address has been passed, and the standing committees of the House struck, the working machinery of the session may be said to be in motion. The committees are at work in the morning, and the House in the afternoon and evening. Then the government bring down as rapidly as possible the public reports, and members commence to ask "Questions," and give "Notices of Motion" on the multifarious topics that suggest themselves. The House has before it every day a printed sheet containing the "Votes and Proceedings" of the previous day, and also a printed paper containing the "Orders of the Day." The "Votes and Proceedings" also publish the "Questions" and "Notices of Motion" according as they are made, but these cannot be taken up and discussed in the House until they appear, according to the rule, on the daily order paper. It is a rule of the House that two days' notice must be given of a motion for leave to present a bill, resolution or address, for the appointment of any committee, or for the putting of a question. Only in case of the unanimous consent of the House can this rule be deviated from. The reason of such a rule, of course, is obvious; it is to prevent the House being surprised by a motion. Cases, however, of privilege—that is to say, some matter directly affecting the rights of the House as a body, or the seat,

conduct, character or rights of individual members—can be immediately brought to the notice of the House, and obtain priority over all others. For instance, in the session of 1874, priority was given to a motion for the expulsion of Louis Riel, then elected to the House, though it was away down among the "Notices" on the order paper. The debate was continued in the evening after recess, though an hour ought to have been devoted to the consideration of private bills. A similar priority was, in 1894, given to the case of Mr. Turcotte, whose seat was called in question on the ground that he had a share in a government contract and received public moneys.

On days not devoted to government business, private members have all the opportunity they require to put the questions (interpellations) or make the motions they have placed on the paper. A member must confine himself to the question or inquiry of which he has given notice, and cannot be allowed to make a speech on the subject. The consequence is, he generally reads the question from the paper, and the member of the government whose duty it is to reply is equally brief and emphatic, though more latitude is allowed in his case whenever necessary in the public interest. When notices of motion are reached, they are taken up in their order and discussed.

The rules with respect to debate are necessarily very strict. No member can speak except to a motion or question which is in regular form before the House—that is to say, read by the speaker from the chair, when it becomes a question. A reply is only allowed, by courtesy, to the member who has proposed a distinct motion or question, and not to one who has made an amendment. But directly a new question has been proposed, as "that this House adjourn," "the previous question," (see next page), or an amendment, members are allowed to speak again, as "the rule only applies strictly to the prevention of more than one speech to each separate question proposed." Members, as a rule, sit with their hats on or off, as they may please, but the moment they rise to speak they must uncover and address themselves to the chair. If any member should inadvertently say "Gentlemen," instead of "Mr. Speaker," he will be called to order, though in the Senate a speaker addresses himself to "Honourable Gentlemen." Whilst a member is speaking no one is allowed to interrupt him, except with his own consent, or he has infringed a point of order, and no one should pass between him and the chair, because he is supposed to be addressing himself particularly to the Speaker. Any offensive allusions against the House, or any member thereof, are not permissible. No member must be referred to by name, but every one disappears for the time being under the title of "honourable member" for somewhere, and this rule, like so many others, has for its objects the repression of personalities and the temperate, calm conduct of debate. No reflection must be cast on the Upper House, though members who have a wish to make a sly hit at that branch generally get out of the difficulty by referring to "another place." Many other rules exist, having for their object the keeping of debate within moderate bounds, but it is not necessary to review them in a brief sketch of this character. Members have one safety valve when they believe themselves to be too suddenly "choked off," and

that is on a motion for adjournment. When such a motion is made in the course of a debate, full scope is given to a discussion. It has been attempted time and again to enforce a stricter practice, and confine members to the question of adjournment, but the Houses have never appeared willing to limit too closely the privilege of members in this particular, especially as it is made use of only in rare cases. Members are not allowed to read from written manuscripts, though they may speak from notes; but the House is at times indulgent to new and diffident members, and winks at notes which sometimes develop into a written speech. In the Canadian, as in the British Commons, the style of debate has of late years become essentially practical. We hear none of that impassioned rhetoric and flowery eloquence which in old times filled our legislative halls. The debates often mark the activity and earnest spirit of a representative assembly generally entrusted with the important business of a young people, engaged in laying the foundation of a future empire. Strict relevancy, however, is not so much a characteristic of our Commons house as it is of our English prototype; nor is the gift of condensation very remarkable.

To the uninitiated the mode of obtaining the opinion of the House on a question may be somewhat perplexing, and I shall therefore try to explain it. Let us suppose that the premier has proposed a motion with reference to an important public matter. When he has made his speech he hands his motion (which must always be seconded) to the Speaker, who reads it to the House in English and then sends it to the table to be read in French in case he does not understand that language. Then the motion may be considered regularly before the House; it may be debated, or amended, as the House may think proper. A member of the opposition proposes an amendment, which is seconded—for otherwise it cannot be taken up—and also read by the Speaker. It is also competent to move an amendment to the amendment on ordinary questions, but not when an amendment is proposed on the motion for the House to go into committee of supply. But let us suppose that there are only two motions before the House—the original motion and the one in amendment. When discussion has been exhausted, and cries of “question, question,” over the House prove the desire for a conclusion of the debate, the Speaker rises in his place and asks the House if it is “ready for the question.” If the debate is really concluded—and any member who may now wish to speak will soon find if the patience of the House is exhausted, and will very wisely refrain from saying anything at that juncture—the Speaker orders the Sergeant-at-Arms “to call in the members”—an order which forbids all further debate. In the course of a few minutes the vacant seats fill up, and the Sergeant-at-Arms and the Whips return from the adjacent lobbies and rooms, where bells have been ringing for some moments to indicate a division. The Speaker rises once more and finally “puts the question,” as it is called in parliamentary phrase. He reads the original motion, and secondly the amendment. Then both motions are read in French at the table, and the Speaker, who is still standing, says: “The question is now on the amendment. Those in favour of the motion will please to rise.” The usage is for the Chief Clerk to check the name of each member who stands up, and

is called by the assistant clerk. It follows that the latter must know the face of every one of the two hundred and fifteen members who make up the Commons. The least mistake in a name is very embarrassing, but it would be still more perplexing to the Speaker and standing members if the assistant clerk should lose his memory for a minute or two. However, no such difficulty has so far ever occurred in our parliamentary practice—some six hundred votes being at times taken in the course of an hour.

When the vote has been taken of the members in favour of the amendment the Speaker calls upon those against it to rise, and the same process is gone through with. If the amendment is rejected, the Speaker declares it lost—“passed in the negative”—and proceeds to put the question on the main motion, though it is quite regular to move another amendment—provided it is not similar in language and purport to the one just rejected. If the main motion is adopted on a division, the Speaker declares it carried—“passed in the affirmative”—and that ends the matter. When the division has been taken, the Clerk reads off the members on each side, but until that is done and the Speaker declares the motion “passed in the affirmative or negative,” it is not permissible for any member to cross the House or leave his seat; for, if he does so, he is saluted with an uproar and cries of “order,” which soon glue him to his chair. Neither will the vote of a member be allowed, if attention be called to the fact that he was not in the House when the Speaker put the question, but only took his seat at the moment of the division. In taking the names, the members, it may be mentioned, stand in rows, and sit down as soon as their names are called, and consequently entered.

The “previous question” in this country is an ingenious, though to many persons a perplexing, method of preventing an amendment being moved to a motion, and of coming to or avoiding a direct vote on that motion. It is proposed in the form, “That the question (i.e., the motion under consideration) be *now* put.” The debate then continues as before on the original or main question, and when it is concluded a vote is taken on the “previous question,” as just stated. If the “previous question” is decided in the affirmative, a vote must be taken immediately on the original question. If the “previous question” is decided in the negative, no vote can be taken on the original question, which disappears for the time being, since the House has decided by its vote that the question shall *not now* be put. The important distinction between the “previous question” in the Canadian parliament and the United States congress is that in the latter debate is closed when it is moved, while in the former body discussion still continues on the question at issue.

A mere resolution of the House only binds itself, and when it is necessary to make a law obligatory upon all the people of Canada, a bill must be introduced, and passed through several stages in the two chambers. Then it receives the assent of the Queen, through the Governor-General, and becomes a statute or legal enactment. A bill is, generally speaking, divided into several distinct parts: (1) The title; (2) the preamble and statement of the enacting authority; (3) the body of the act, consisting of one or more propositions, known as clauses or sections; (4) the schedules—the latter

being only necessary in certain cases. Bills are either *public*—that is to say, dealing with matters of a public or general nature; or *private*—that is to say, relating to the affairs of corporations, companies, or individuals. The former class are introduced on motion in the ordinary way, "That leave be given to introduce a bill" (here follows title); but the latter must be initiated after a petition and a notice in the *Gazette* and local papers in accordance with strict rules, intended to give all persons interested in the scheme full knowledge of the proposed legislation. Private bills, when presented, must also be rigidly subject to the scrutiny of select committees for the reason just stated; and these committees consequently assume a *quasi* judicial character in cases of controversy. But all bills, public and private, must be read three times in each House, as well as considered in committee of the whole. The second reading is the stage when the principle of the measure is discussed in the case of public bills—though not necessarily so as respects private bills—while the committee of the whole allows a free and full discussion of the clauses or provisions, without a limitation of the number of speeches on one question or motion. When a bill has passed the Commons it is sent to the Senate for concurrence, and as soon as that body has also subjected it to the same ordeal, it is ready for the assent of the Crown. In case of amendments by one House they must be agreed to by the other. If there is no such agreement, the bill drops for the session. As a rule, an interval of a day should elapse between the different stages of a bill. When it is finally passed and becomes law, it bears the signatures of the Clerks of the two Houses and of His Excellency the Governor-General on the back.

The most important duties of the House are in connection with money matters. Here the constitution and the rules of Parliament have imposed many guards and checks upon hasty expenditure or the imposition of taxes without due consideration. By the Union Act any measures for appropriating any part of the public revenue, or for imposing any tax or impost, must originate in the House of Commons. The House itself is restrained by the same act. It cannot adopt or pass "any vote, resolution, address or bill for the appropriation of any part of the public revenue, or of any tax or impost, to any purpose that has not been first recommended to the House by a message of the Governor-General." A rule of the House itself declares that if any motion be made in the House for any public aid or charge upon the people, "the consideration or debate thereof may not be presently entered upon, but shall be adjourned until such further day as the House shall think fit to appoint; and then it shall be referred to a committee of the whole House before any resolution or vote of the House do pass thereon." It follows from what precedes that no private member is permitted to propose a dominion tax upon the people, or to introduce a bill providing for a public grant; such measures must be initiated by ministers of the Crown in the shape of resolutions which are to be considered in committee of the whole, and when adopted form the basis of a bill. No petition, as we have already shown, can be received if it asks for any grant or charge upon the public revenue, unless it is first recommended by the Crown. It happens sometimes, however, that a

petition asks for enquiry before a special committee into certain claims which the petitioner may have against the government, and then, if the government is willing, the committee is granted; but such cases are under our present practice of rare occurrence, for the government is very properly jealous of any attempt to deviate from a wise constitutional rule which is intended to prevent the inconsiderate expenditure of public money. Individual members of the House cannot have the same feeling of responsibility as a government, which is constitutionally the guardian of the public purse, and is held strictly to account for every dollar of expenditure.

The committees of supply and ways and means are the constitutional mode of providing for public expenditures. These committees are appointed at the beginning of every session, when an address has been passed in answer to His Excellency's Speech. As soon as the committee of supply has been formed, and the government are ready, they bring down a message from his Excellency with the estimates of the sums required for the public service for the next fiscal year, which commences on the 1st of July and ends on the next 30th June. It has sometimes happened that the finance minister has brought down his Budget and made his annual financial statement on the motion for the House to go into committee of supply. But in case of a change of the tariff, the more constitutional mode is to make his speech when he proposes certain resolutions to be adopted by the committee of ways and means. The rules for proceeding in the committees of supply and ways and means are precisely similar to those observed in other committees of the whole House. Members are not confined to one speech, but may address the committee as often as they please on a particular resolution. The chairman acts as speaker and decides all questions of order. After the Budget is formally before the House, and the leading members on both sides have made their speeches on the commercial and financial state of the country, the committee of supply meets regularly and disposes of a large amount of money at every session; but every vote is very carefully scrutinized and the fullest explanations are demanded from the government, who, on such occasions, have to perform the most difficult and wearisome part of their legislative duties. Resolutions agreed to in committee are reported to the House, but they are not received until a later day. When the committee of supply has finished its labours, and all the money votes have been adopted by the House, the committee of ways and means passes certain resolutions which provide for the grants shown to be necessary by the first-mentioned committee; and then a bill, called the Supply or Appropriation Bill, is introduced by the government to carry out the resolutions. This bill has often passed all its stages in one day, but this is not in accordance with the wise British practice, where the rule requiring delay in case of all money bills is strictly carried out. The bill goes up to the Senate, where, however, it is never altered, in accordance with constitutional usage. On its return to the Commons, it is carried up by the Speaker to the senate chamber. When His Excellency has assented to the bills passed by parliament during the session, the Speaker of the Commons addresses His Excellency, and asks for an assent to the bill, and this assent is granted with the usual formula: "In Her

Majesty's name, His Excellency the Governor-General thanks her loyal subjects, accepts their benevolence, and assents to this bill."

From the commencement to the close of the session, the House is kept constantly busy from its hour of meeting, three o'clock, until a late hour of night, and very frequently until an early hour of the next morning. It has not been unusual for a sitting to last from three o'clock in the afternoon until the same hour next morning, with the regular recess from six to eight o'clock. The work of legislation is very arduous. It must be remembered that the members of the government have not only departmental work to attend to, but there are very important duties to be performed in committees by ministers and members. The committees on public accounts, railways, agriculture, banking, private bills, and printing, for instance, have very laborious work to attend to during the mornings, and then there are always any number of special committees appointed on motion of members during the session, all of which consume a great deal of time and obtain a considerable amount of useful information, which is to be found in the appendices to the journals of the House. It is impossible to exaggerate the importance of the work done in the committees. Many members who take but little part in the debates of the House, and consequently obtain comparatively little share of public notoriety through the press, give up a great deal of time and attention to labours whose value to the country and the House can only be fully appreciated by those who have been initiated into the mysteries of committee work. All committees are appointed by the House on motion duly made and adopted, and can consider only those subjects duly referred to them by the House.

It necessarily takes a large staff to perform the official work of legislation. The Clerk of the House, who sits at the head of the table, is appointed by the Crown, and is sworn to make "true entries, remembrances, and journals of things done and passed in the House of Commons." He keeps notes of the proceedings, which are made up in the shape of journals, where all the forms are strictly carried out. He is aided by one or two assistants, who sit on each side of him. Then there is

in the department a large number of officials who are kept constantly occupied during the session with the multifarious duties required of them. The work of translation occupies the time of several officials, and impossibility of attending to the numerous committees and other work consequent on a session renders the employment of extra clerks necessary. The Sergeant-at-Arms, who is next in rank to the Clerk, has charge of the messengers, servants, and furnishings of the department. He attends the Speaker with the mace on all public occasions, serves orders on persons who are to appear at the bar, takes into custody all persons who misconduct themselves in the galleries or other parts of the House, and performs other duties of an important character, which are prescribed by usage.

In its obedience to the chair, in its respect for constitutional authority, the Canadian House of Commons is in no respect inferior to its illustrious prototype in the parent state. The Speaker has always the gratification of knowing that his orders and decisions are respectfully heard, and that he has the confidence of the House as long as he continues to observe that strict impartiality which, it is acknowledged on all sides, the first Commoners of Canada have never failed to exhibit whilst presiding over the debates and deliberations of the popular branch. In the Commons of this country the rules and practice of parliament—*lex et consuetudo Parliamenti*—are observed as closely as in the British House, and whenever our own rules and usages fail as a guide, we fall back on those of the British parliament, where centuries of legislation have built up volumes of precedents. Some persons may find mysteries, and even absurdities, in the numerous formalities which surround our legislation, but no one who has studied constitutional history will be ignorant of the fact that such formalities are found absolutely necessary by the experience of the greatest deliberative body in the world. Parliamentary rules are particularly valuable in the direction of careful deliberation on all questions affecting the public purse, but they also tend to assist that slow and patient enquiry and discussion which can best mature useful legislation, and help to moderate the spirit of faction and the display of personal animosity.

The House of Commons, which is elected by the people for a term of five years, enjoys both legislative and executive functions, since through a committee of its own it governs the country. At the present time it consists of 215 members. This number is fixed under the provisions of the Act of Confederation, the basis being that Quebec is always to have sixty-five representatives, and each of the other provinces such a number as will give the same proportion of representatives to its population as the number 65 bears to the population of Quebec, as ascertained by the census. British Columbia, by the terms of admission into the Confederation, however, is never to have less than six members.

The proportionate representation of each province, and the number of representatives now and after the dissolution of the present Parliament are given in the following table:—

PROVINCES.	NO. OF REPRESENTATIVES.		POPULATION TO EACH MEMBER.	
	Now.	Under new Act.	Now.	Under new Act.
Ontario	92	92	22,982	22,982
Quebec	65	65	22,900	22,900
Nova Scotia	21	20	21,447	22,520
New Brunswick	16	14	20,080	22,947

SUMMARY OF ACTS

PASSED DURING THE SESSION OF THE PARLIAMENT OF CANADA, 57-58 VICTORIA, (1894.)

- CHAPTER 1.** Provides for defraying the expenses of the Public Service for the year ending 30th June, 1895.
- CHAPTER 2.** Provides for the ratification of the Treaty between Her Majesty and the President of the French Republic, dated 6th February, 1893, extending commercial relations between Canada and France.
- CHAPTER 3.** Authorizes the Governor-in-Council to divide between the Provinces of Ontario and Quebec the fund known as the "Common School Fund," so soon as an agreement has been reached between the Governments of such Provinces as to the distribution of the same, or so soon as such distribution has been determined by arbitrators if the question should be referred to them.
- CHAPTER 4.** Enables the Governor-in-Council to grant subsidies of various amounts therein set forth to the several railway companies therein mentioned to aid in the construction of the railways of the respective companies. It is provided that the subsidies shall be payable out of the Consolidated Revenue Fund of Canada by instalments as the various sections of the several railways shall be completed.
- CHAPTER 5.** Provides for the payment, notwithstanding anything in Chapter 8, of the Statutes of 1884, of the subsidies authorized by that Act to be paid to the Government of Quebec for having constructed the railway between Quebec and Ottawa.
- CHAPTER 6.** Enables the Governor-in-Council to grant subsidies in land to certain railway companies therein mentioned in aid of the construction of the railways of the respective companies; such grants to be subject to conditions fixed by Order-in-Council and to the cost of survey.
- CHAPTER 7.** Authorizes the granting in tracts of the ungranted portion of the Canadian Pacific Railway Company's land subsidies. No such grant, however, is to include grants to the Hudson's Bay Company or school lands, and where such grant includes Hudson's Bay Company's lands, other lands are to be granted to that Company instead.
- CHAPTER 8.** Authorizes the Governor-in-Council to enter into a contract for a term not exceeding ten years with any individual or company for the performance of a fast weekly steamship service between Canada and the United Kingdom, making connection with a French Port, on such terms and conditions as the Governor-in-Council deems expedient, for a subsidy not exceeding the sum of \$750,000 a year.
- CHAPTER 9.** Authorizes the payment by Order-in-Council of a bounty of \$2.00 per ton on all pig iron made in Canada from Canadian ore; a bounty of \$2.00 per ton on iron puddled bars, steel billets, manufactured in Canada from pig iron made in Canada from Canadian ore during the periods and subject to the conditions mentioned in the Act.
- CHAPTER 10.** Provides that the deduction from the Seasonal allowance due to Members of Parliament for absence shall not be enforced in certain cases during the present Session of Parliament.
- CHAPTER 11.** Makes provision for replacing the Speaker of the Senate during his illness or unavoidable absence. As there is a constitutional question involved this Act is not to come into force until Her Majesty's pleasure thereon has been signified by proclamation in the Canada Gazette.
- CHAPTER 12.** The Electoral Franchise Act is amended by extending the time for the revision and certifying of lists in 1894. Provision is also made for the appointment of Revising Officers and the making of lists where an Electoral District is affected by the Redistribution Act.
- CHAPTER 13.** Amends the Dominion Elections Act by providing that at every general election one and the same day shall be fixed by the Governor General for nomination of Candidates throughout the Dominion, except that in certain remote districts returning officers may fix the day of nomination and the day of polling. An improved form of ballot paper is also authorized.
- CHAPTER 14.** Provides for the holding by a Judge of an enquiry into alleged bribery at elections, upon petition. The Judge is to ascertain by all lawful means the persons who have taken bribes at such elections and upon evidence to that effect, the Judge shall report to the Secretary of State the names of all persons who have been found guilty of taking bribes. The names of such persons are to be struck off the Voters' Lists and they shall be incapable of voting for seven years. No petition under this Act is to be received unless accompanied by a deposit of \$1,000.00.
- CHAPTER 15.** The North-West Representation Act is amended in several particulars.
- CHAPTER 16.** Provides for the examination of witnesses on oath by the Senate and House of Commons and any Committee of either House.
- CHAPTER 17.** Certain powers are given to the Legislative Assembly of the North-West Territories and the Lieutenant Governor is authorized to appoint certain officers Justices of the Peace, Police Magistrates, etc. Besides other matters relating to the criminal law and administration of justice, the Act provides for the establishment of an Executive Committee in the Territories, to be appointed by the Legislative Assembly from the elected members thereof.
- CHAPTER 18.** Provides that until the first of July, 1895, any person who was in the service or employment of the Government of Canada on the 1st of July, 1892, and who has since been continuously engaged therein, may be appointed or promoted to any position in the public service without regard to age and without being required to pass the preliminary or qualifying examination, and all appointments of such persons and payments of salary to them are legalized and confirmed.
- CHAPTER 19.** In amendment of the Consolidated Revenue and Audit Act—provides for the limitation of actions or prosecutions against Revenue Officers, and prescribes the procedure in such actions or prosecutions. It also provides that where the Judge or Court certifies that there was probable cause for the seizure, the claimant shall not be liable for costs and the person who made the seizure shall not be liable to suit or prosecution.
- CHAPTER 20.** The Insurance Act is amended in respect to the class of Insurance Companies which require to be licensed, and the business which may be done by Companies. Extensive provision is also made with respect to the securities which Companies are required to deposit to the reserve for covering liabilities to Canadian Policy-holders, and to the conditions upon which deposits may be released.
- CHAPTER 21.** The effect of this Act is to increase the authorized issue of Dominion notes from twenty to twenty-five million dollars.
- CHAPTER 22.** Further amends the Revised Statute respecting interest, by providing that every judgment debt shall bear interest at the rate of six per cent. per annum until satisfied.
- CHAPTER 23.** The Act respecting the incorporation of Boards of Trade is amended as to the interpretation of the word "district."
- CHAPTER 24.** Extends the time for making grants of land or scrip to members of the Militia force on active service in the North-West Territories.
- CHAPTER 25.** Authorizes the Governor-in-Council, with the consent of the Iroquois of Caughnawaga, to accept from the constables of the seignior of Sault Saint Louis seventy-five per cent. of the arrears of rents due by the said constables as payment in full of all arrears due on the 11th November, 1892.
- CHAPTER 26.** Amends the Dominion Lands Act by recognizing the right to homestead entry of persons who have settled on school lands before survey. Under the provisions of the Dominion Lands Act it was necessary that Orders-in-Council and Regulations should be published in the "Canada Gazette," and until they were so published they had no force or effect. In the past the publication of Orders-in-Council and Regulations was sometimes overlooked and section 2 was passed to remedy this. Section 3 provides for the sale or lease of public lands in regard to which no such provision has heretofore existed.
- CHAPTER 27.** Amends and consolidates the Acts respecting the North-West Mounted Police Force.
- CHAPTER 28.** Amends and consolidates the Acts respecting lands in the Territories.

- CHAPTER 29.** Repeals the Homestead Exemption Act which exempted homesteads in the North-West Territories from seizure or sale under execution as therein set forth.
- CHAPTER 30.** Provides * for introducing a system of irrigation in the North-West Territories. It provides the manner in which the use of water rights vested in the Crown may be secured; authorizes the construction of reservoirs required for the purposes of companies authorized to undertake such works. It provides the manner in which lands necessary for such undertaking may be acquired by companies; authorizes compensation for damages; adjustment of disputes as to land taken, and also contains provision as to the proper use of water rights, and penalties for their improper diversion or waste, etc.
- CHAPTER 31.** Provides for the preservation of game in the unorganized portions of the North-West Territories of Canada by providing that no buffalo or bison shall be killed for the next five years, and by establishing a close season for certain other beasts and birds.
- CHAPTER 32.** Further amends the Indian Act in respect to the rights of Indians to devise or bequeath property by will and the distribution of estates of intestate Indians; the administration of the property of minors; appointment of guardians to minors and other similar matters. It also contains provisions for preserving order on Indian reserves and from preventing any person other than an Indian from residing at the reserve, and it gives power to the Governor-in-Council to make regulations for securing the attendance at school of Indian children and for establishing industrial or boarding schools.
- CHAPTER 33.** Establishes the rate of Custom duties upon certain articles specified therein.
- CHAPTER 34.** In explanation of the Act providing for the allowance of drawback on iron and other article manufactured in Canada used in the construction of the Canadian Pacific Railway, it is enacted that the words "original construction" shall extend to and include the first iron or steel bridge erected in a locality, but not any renewal or repair thereto.
- CHAPTER 35.** Further amends the Inland Revenue Act in respect to the disposal of penalties and forfeitures; drawbacks on exportation of certain goods; penalty for the sale of spirits unlawfully manufactured, and duties of excise on malt.
- CHAPTER 36.** Amends the General Inspection Act by specifying the various grades of hay.
- CHAPTER 37.** Forbids the fraudulent making or labelling of certain articles therein mentioned.
- CHAPTER 38.** Establishes the units of electrical measure for Canada.
- CHAPTER 39.** Provides for the inspection of electric lights.
- CHAPTER 40.** Further amends the Petroleum Inspection Act, especially with regard to the sale of high test petroleum, the importation of petroleum in tank cars, and the importation of naphtha and gasoline in iron drums.
- CHAPTER 41.** Amends the Act respecting lighthouses, buoys and beacons and Sable Island by vesting in the Governor-in-Council the power of appointing keepers whose salaries are over \$200.00 a year, and in the Minister of Marine and Fisheries the power of appointing keepers whose salaries are under that amount. Also authorizes the Minister to contract for supplies to lighthouses and lights.
- CHAPTER 42.** Amends the Act respecting certificates to Masters and Mates of ships by providing, amongst other things, that for the purpose of the domicile required for the examination necessary to enable a person to become a Master or Mate or Second Mate, foreign subjects serving in ships registered in Canada shall be deemed to be domiciled in Canada. The Act also provides that no ship over one hundred tons registered in Canada shall go to sea without a certificated Master and Mate, and no ship shall go on an inland or coasting voyage without a certificated Master, and, in certain cases, a certificated Mate. The certificate must be produced on applying for a clearance.
- CHAPTER 43.** Extends to the Master of a ship the same rights and remedy for the recovery of his wages and proper disbursements on account of any ship, which by that Act or any law any seaman, not being a Master, has for the recovery of his wages, and also provides in respect of the relief of Canadian seamen found abroad in distress that persons serving in ships registered in Canada shall be deemed to be domiciled in Canada while so serving.
- CHAPTER 44.** Amends the Act respecting the safety of ships by providing that certain lading (timber, spars, and other cargo) is not to be placed on deck in winter, except temporarily in case of emergency, and it requires Customs officers to ascertain that ships are loaded according to the Act. Penalties for contravention of these provisions are also added. A new provision is added requiring every ship carrying passengers to have gangboards and lights.
- CHAPTER 45.** In amendment of the Inspection of Ships Act, confers on every Inspector the right of visiting ships whether registered in Canada or elsewhere for the purpose of inspecting the tackle, machinery or apparatus used for loading and unloading. It further provides for the forfeiture of any tackle, machinery or apparatus considered to be dangerous to life.
- CHAPTER 46.** Excepts from the application of the Steam Boat Inspection Act yachts used exclusively for pleasure or private use; tug boats under one hundred and fifty tons, etc. It also provides that steamboats carrying passengers shall have sufficient gangboards and lights at night.
- CHAPTER 47.** Authorizes the Governor-in-Council to declare by proclamation any area covered with water within the jurisdiction of the Parliament of Canada to be a public harbour. The Governor-in-Council may also make rules and regulations for the government of any public harbour, such rules and regulations in the case of certain ports which are governed by Special Acts not to be inconsistent with such Acts.
- CHAPTER 48.** Is a consolidation of the various Acts relating to the Harbour Commissioners of Montreal.
- CHAPTER 49.** Extends to the public wharf at New Glasgow the provisions of the Act respecting the Harbour of Pictou in Nova Scotia.
- CHAPTER 50.** In amendment of the Harbour Master's Act—confers on the Governor-in-Council, in addition to the power possessed by him of appointing Harbour Masters, the power or appointing Deputy Harbour Masters.
- CHAPTER 51.** The Fisheries Act is amended by prohibiting the killing of seals, porpoises, whales or fish of any kind by means of explosives or projectiles. Drifting for salmon is also prohibited except under license in New Brunswick and British Columbia, and in the latter province it is confined to tidal waters. The lobster fishery is protected by various appropriate provisions. Licenses are required and the fishing is to be under certain regulations. There are also other minor amendments.
- CHAPTER 52.** Enacts that culling shall not be compulsory except in the case of square and fancy timber.
- CHAPTER 53.** Adds to the powers of the Railway Committee that to make regulations requiring proper shelter to be provided for motormen and other employees operating electric and other railway cars.
- CHAPTER 54.** Applies the rate of postage on newspapers and periodicals to certain other matter (almanacs in sheets, chromos, etc.) sent from the office of publication. Newspapers in addition to their accounts and receipts, are allowed to include in the newspaper folded printed circulars inviting subscription, and printed envelopes.
- CHAPTER 55.** Establishes the first Monday of September as a legal holiday to be known as Labor Day.
- CHAPTER 56.** Provides for an addition of \$1,000.00 per annum to the Acting Chief Justice of the Superior Court of Quebec and fixed the salaries of the Judges of the County Courts of Cariboo, New Westminster, Yale, Uanaimo and Kootenay.
- CHAPTER 57.** Amends the Criminal Code, 1892, in certain particulars not set forth in the schedule.
- CHAPTER 58.** Provides for the trial of youthful offenders apparently under the age of sixteen years. It also makes provision for their separation from contact with older offenders and habitual criminals during their arrest and trial and makes better provision for commitment to places where they may be reformed and trained to useful lives.
- CHAPTER 59.** Authorizes the Governor General by warrant, on the application of the Attorney General of New Brunswick to cause any boy who is imprisoned in the Dorchester Penitentiary or in any gaol in the Province for an offence against the law of Canada to be transferred to the Boy's Industrial Home.
- CHAPTER 60.** Provides for the transfer to Houses of Refuge for Females any female sentenced to imprisonment in any of the common gaols of the Province of Ontario.

The remaining Acts are local and private, and the nature of each is indicated by its title.

THE LAKE ST. JOHN TERRITORY.

The territory in question extends from the head of navigation of the river Saguenay, at Chicoutimi, to the northern boundary of the Province of Quebec, a distance of 220 miles, and from the sources of the waters flowing into Lake St. John, from the East, to the river St. Maurice, and embracing the valley of the river Batiscan, a distance of 200 miles, the whole forming an area of 44,000 square miles or about 28,000,000 acres. Comparatively little is known of this great country, with the exception of the valley of Lake St. John, which, within the last few years, has been colonized with great rapidity, and now contains a population of some 40,000.

The Saguenay and St. Maurice regions are already the field of large lumbering operations, estimated at 60,000,000 feet, B.M., per annum, or equivalent to nearly one-half of the whole export of sawn lumber from the port of Quebec. The country is thus described by a gentleman who visited it recently:

The Soil "Is almost universally composed of a rich grey clay, the land seems to be inexhaustible. At Pointe-aux-Trembles I was shown a field of wheat, which had been producing that grain for the last fifteen years, without the application of any manure; and the grain I saw this year was as fine as any to be found in this district. Truly one is struck with wonder at the richness of the soil, for I believe there is none richer in Canada."

The climate of the Lake St. John region is said to be that of Montreal; there is no doubt of its being superior to that of Quebec. The snowfall is certainly less. In fact, farmers complain that they do not get good sleigh roads till late in the winter. On the 25th September this year I remarked that the leaves of the trees were very little tinted, and potato stems were still green. Wheat and all grains ripen and produce abundantly, as may be seen from the following extracts, taken from the census returns:

	1861.	1871.	1881.		1861.	1871.	1881.
Wheat, bushels	10,912	136,099	154,589	Hay, tons	3,648	5,966	16,347
Oats, "	39,316	117,249	211,216	Butter, pounds	61,777	148,106	393,127
Barley, "	30,922	71,210	47,025	Head of live stock	18,746	44,772	59,797
Other Grains			108,183	Tobacco, pounds			67,437
Potatoes, bushels	101,382	156,996	287,238	Population	10,478	17,493	32,409

Potatoes, carrots and other vegetables yield abundantly and are of immense size. Wheat is of course the great test of the soil and climate of any agricultural country. Let us then compare its production at Lake St. John with the best districts of the Province, viz: The Eastern Townships, and we find that the census return show in 1881:—

	Population.	Bush. Wheat.	Bush. per 1000 of pop.
Chicoutimi	32,409	154,589	4,800
Compton	19,631	34,181	1,800
Stanstead	15,556	37,727	2,400
Huntingdon	15,495	24,378	1,600

Comparison between the temperature, and snow-fall at Roberval and at other places in Canada, each winter season (from January to March inclusively) and each summer season (from July to September inclusively.) The observations for Roberval extend from April 1883 to May 1890, inclusively; those for Moose Factory, James Bay, from the year 1877 to the year 1882. All these observations are taken exclusively from the official reports of the Meteorological Department at Toronto.

POSTAL INFORMATION.

For List of Officials Post Office Department see page 76.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce. All postage must be prepaid by Postage Stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per half oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—Letters, 3 cents per oz. Newspapers, from office of publication for subscribers, free. Other matter same rates, etc., as to United Kingdom.

Bermuda.—Letters, 5 cts. per $\frac{1}{2}$ oz. Newspapers and printed matter generally, 1 cent per 2 oz

United States.—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

It is very important to bear in mind that the postage upon letters for the United Kingdom and all Foreign Countries is calculated by the *half ounce* and *double* postage is charged on all unpaid letters.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 7 lbs is allowed); for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz. which must be prepaid by stamps

The rate to Great Britain and the United States is 1 cent per 2 ozs.

Rates of Postage on Letters and Newspapers for Foreign Places.

The rates on letters and newspapers for all parts of the world (see exception for United States and Newfoundland) are 5 cents per $\frac{1}{2}$ oz. for letters, and 1 cent per 2 ozs. for papers.

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post:—

1. On all pamphlets, occasional publications, printed circulars, prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, the rate is 1 cent for each 4 ozs. or fraction thereof.

2. On maps, prints, drawings, engravings, lithographs, photographs when not on glass or in cases containing glass, circulars produced by a multiplying process easy to recognize, exhibitor's entry tickets for Dominion or Provincial Exhibitions, botanical and entomological specimens when properly put up so as to prevent injury to the contents of the mails, sheet music whether printed or written, including music books whether stitched or bound (instruction books in music and instruction books in drawing accompanied by charts may however pass at Book-Post rate, which *see*), book or newspaper manuscript whether type-written or hand-written, printer's proof sheets whether corrected or not, such partly printed and partly written documents as deeds of land, mortgages made under seal (including chattel mortgages), insurance policies, renewal receipts when attached to the policies, insurance receipts sent in bulk from head offices to agents, militia and school returns, customs manifests, voter's lists when written or partly in writing, school or college examination papers, municipal assessment rolls, partly printed and partly written, Dominion and Provincial Government documents, statute labour returns, municipal returns in general, blank books, printed forms entirely blank, and printed stationery, the rate of postage is 1 cent for each 2 ounces or fraction of 2 ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or wrappers; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceed, 5 lbs. in weight, 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

Newspapers and Periodicals.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication to regular subscribers or news agents in Canada, the United States and Newfoundland, are sent free; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion, other than those addressed to regular subscribers or news agents, from office of publication, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing not more than 1oz. each may be posted singly, if prepaid by Postage Stamp $\frac{1}{4}$ cent each.

The postage on specimen newspapers and papers and periodicals published less frequently than once a month is one cent per lb.

British and foreign publications received by mail may be re-posted in Canada to subscribers in Canada at the rate of 1 cent per lb.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers in Canada.* When addressed to any place within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing not more than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom—sent in the Mails forwarded by Canadian Packet or *via* New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz. The English Post Office requires *each newspaper or periodical* to each address to be prepaid by postage stamp. If sent in packages the English Post Office declines to deliver them.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided the deficiency does not exceed 5 cents.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

United Kingdom and United States.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom must not exceed 5 lbs.

in weight, and to the United States 8 oz., and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County and Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post or as fifth class matter.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following regulations:—

1. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.

2. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.

3. All Parcels must be securely and substantially packed and closed.

4. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.

5. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the *presence of the persons addressed*.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Prepayment by postage stamp is required in all cases. Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Fifth Class Matter.

Postage rate one cent, per ounce or fraction of an ounce, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, and not entitled to be posted at a lower rate than 5th class under one or the other classes, may pass as 5th class when addressed to any destination within the Dominion or United States. Fifth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 pounds in weight, nor 2 feet in length by 1 foot in width or depth. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 5th class matter is 5 cents in addition to postage.

Money Orders.

In sending money by mail it is always best to transmit by Money Order if possible.

Commissions on Money Orders.

On Money Orders drawn by any Money Order Office in Canada on any other Money Order Office in the Dominion, the Commission is as follows:—

If not exceeding.....	\$ 4.....	2 cents.

There being a direct exchange of Money Orders between the Dominion of Canada and the countries and British Colonies distinguished by an asterisk (*), Orders drawn upon these countries and colonies are paid in the full amount for which drawn. Orders upon other countries and colonies, not so distinguished, are, however, subject to a small abatement on payment.

Money Orders on the above countries are drawn in Canada Currency. Tables showing the sums payable in other countries where the money is of a different denomination, on Orders issued in Canada, will be found below:

STEAMSHIP AND STEAMBOAT LINES IN THE DOMINION OF CANADA.

NOTE.—The numbers opposite each line of steamboats correspond with the numbers used in the list of Post Offices and Railroad Stations following. Inasmuch as steamboat lines are not fixed as are railroads but are constantly changing, this list must be used by shippers and travellers with caution.

As this list of Steamboat and Steamship Lines is entirely new, the publisher begs that those who use it will kindly help him to make it more perfect by sending corrections, additions or criticisms to Editor CANADIAN ALMANAC, 9 Front Street, West, Toronto.

a This mark signifies that the line is subject to interruption by the Seasons—Winter in some parts of the country, low water in other parts "d" or "Daily" means every day except Sunday.

POST OFFICES AND RAILROAD STATIONS

IN THE DOMINION OF CANADA.

The Offices printed in *Italics* are authorized to grant and pay Money Orders. The Offices marked * are Savings Bank Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Assa, Assiniboia; Atha, Athabasca; Sask, Saskatchewan.

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 151 to 153.

The thanks of the publishers are due to E. W. Bullinger, Esq., for his kind permission to use "Bullinger's Postal and Shipper's Guide for the United States and Canada" in the preparation of the following list:—

The Blue Ensign of Canada.

THE IMPERIAL AND CANADIAN FLAGS.

BY COLIN CAMPBELL,
Assistant Paymaster, R. N. (Retired).

In the CANADIAN ALMANAC for 1894, the regulations governing the use of flags and colours in the different branches of the Imperial service, Naval, Military, Diplomatic and Consular, and Colonial, were given in very clear detail; also, the Royal Warrant granting armorial bearings to the Dominion of Canada, and the conditions under which that coat-of-arms is authorized to be worn upon the distinguishing flags of the Governor-General (and its component parts upon the flags of the respective Lieutenant-Governors), upon the blue ensigns of the Government vessels of Canada and the red ensigns of our mercantile marine. A reference to that article is suggested, both for fuller information as to the regulations and heraldic points and for the correction of popular misconceptions in regard to the flags, as well as an explanation how these mistakes have arisen.

In reproducing the plates of flags, the principal regulations governing their use are here presented in a summarized form, some points being more clearly explained, and further information being added.

I. THE ROYAL STANDARD is the personal banner of the Sovereign, and is flown over the Queen's residence, hoisted on the mast-head of any of H.M. ships in which she is embarked, and displayed in place of the Union Jack over the fortresses and garrisons of her Empire on the Royal anniversaries. She quarters upon it her arms as the monarch of England, Scotland, and Ireland, the English coat-of-arms being repeated in the fourth quarter to complete the even number required by the laws of heraldry.

II. THE UNION JACK—OR, as it is officially described, "the Great Union, the imperial colour of the United Kingdom of Great Britain and Ireland, in which the Cross of St. George is conjoined with the Crosses of St. Andrew and St. Patrick, on a blue field"—is flown upon all the fortresses and garrisons of the Empire, whether under the charge of Imperial military authorities or Colonial militia forces.

The Queen's Regulations contain the list of military stations at which it is ordered that this national flag shall be used either daily or on particular occasions. Successive Sovereigns have specially authorized the use of the Royal Standard at certain stations, and these also are specified in the Queen's Regulations.

Similarly the stations in Canada (exclusive of Halifax, which is an Imperial fortress), at which the Union Jack is ordered to be used either daily or on particular occasions, are specified in a Militia General Order, which is an addendum to the Militia Regulations.

III. IN THE MILITARY SERVICE, the Union Jack, bearing one of the ancient badges conferred by Royal authority, is the regimental or second colour of each of the three regiments of Foot Guards, their Royal or first colours (also called the Queen's colour) being of crimson, with appropriate distinctions. The Queen's colour of every other regiment of Infantry is the Great Union,

The Royal Standard.

having in the centre the territorial designation and regimental title, surmounted by the Imperial crown. The regimental colour is of the colour of the facings, except in regiments faced with white, whose second colour is the Red Cross of St. George in a white field, with designations and titles displayed as on the Royal or first colour, within the Union wreath of roses, thistles and shamrocks, and ensigned with the Imperial crown. The colours of Infantry are, as a rule, to be carried by the two senior second-lieutenants.

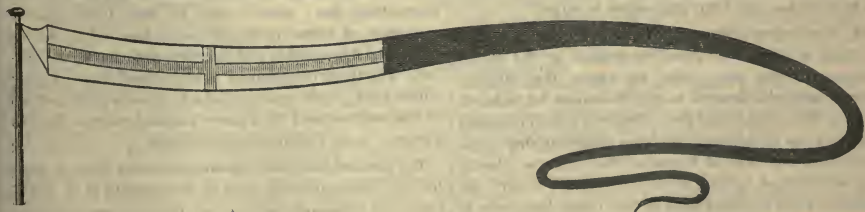

The several regiments of Dragoons have special standards and guidons; Hussars and Lancers do not carry standards, their badges and devices being therefore borne on their appointments.

The privilege of carrying colours can be conferred only by the Sovereign personally or by her personal representative; and no addition to or alteration in colours can be made without the Sovereign's special permission and authority signified through the Commander-in-Chief.

Colours in the Canadian Militia.—From the above it follows that the authority to bear colours is granted as a privilege, personal to the particular regiment to which they are awarded. There can therefore be no general issue or distribution of colours. Devices, badges and mottoes are conferred on regiments entirely apart from the special privilege of carrying colours. Such devices as appear emblazoned on the colours represent thereon only the identity and historical record of the regiment.

For use in Vessels and Boats, the military authorities have also special flags, according to the arms of the service; these need not be here recapitulated.

IV. IN THE NAVAL SERVICE, the flag regulations are equally precise and stringent. The distinguishing flags and pendants authorized to be hoisted by the Navy authorities when embarked, and by Admirals and Commodores in command, were described in the article published last year; also the distinguishing flags to be hoisted in ships and boats of the Royal Navy in which the various Military, Diplomatic, Consular and Colonial authorities of the Empire may be embarked. Finally, all Her Majesty's Ships in commission (that is, on service), when not bearing an Admiral's flag or Commodore's broad pendant, wear at the main-mast-head a long, narrow, pointed Pendant, having a St. George's cross on a white field next the mast, with a white "fly" or tail to it; this is the "whip-lash," the special distinguishing mark of a man-of-war.

Colours: Navy.—All Her Majesty's Ships of War in commission bear a white Ensign, with the red St. George's Cross, and the Union in the upper canton, and they may display the Union Jack at the bowsprit end.

The Union Jack, with a border of white of one-fifth of the Jack, is used in all parts of the world as a Pilot Flag by all British ships, whether Naval or Mercantile.

Colours: other Government Vessels.—Ships and vessels employed in the service of any Public Office carry a blue Ensign, having in the centre of the fly the seal or badge of the Office to which they belong. Hired transports, and surveying vessels other than men-of-war, also fly the blue Ensign; when commanded by Naval Officers a blue pendant also.

Colours: Royal Naval Reserve.—British Merchant Ships commanded by Officers of the Royal Navy or Royal Naval Reserve, and having at least ten of the Officers and crew belonging to the Royal Naval Reserve not in arrears with their drill, etc., are allowed to wear the blue Ensign, a special Admiralty warrant being first obtained in each case.

Colours: Colonial Government Vessels.

1.—Any Vessel maintained by a Colony and used under the 3rd Section of the Colonial Defence Act of 1865, shall wear the blue Ensign, with the seal or badge of the Colony in the fly thereof, and a blue Pendant.

2.—All Vessels belonging to, or permanently in the service of the Colonies, but not commissioned as Vessels of War under the Act, shall wear a similar blue Ensign, but no pendant.

The Fishery Protection Cruisers of Canada, although not commissioned as Vessels of War, are authorized by special warrant from the Lords Commissioners of the Admiralty, to fly the long pendant. Other Government vessels of the Dominion are allowed to wear a blue Ensign, with the Dominion arms thereon, but not the pendant in addition.

The distinguishing Pendant that is worn at the main-mast-head of an armed vessel, and authorized to be flown by the commanders of the Canadian Fishery cruisers, is similar to that worn by vessels of the Royal Navy, except that its fly or field is blue, with the Ensign (red St. George's Cross, on a white field, next the mast.

The Admiralty regulations, which are strictly observed by our Department of Marine and Fisheries, are very precise as to the dimensions and proportions of the Ensign and Pendant. One restriction should especially be noted here. "*The area of the shield (containing the Dominion badge) shall in no case exceed one-fourth the area of the Union Jack of the particular Ensign in which it is used.*"

V. IN THE MERCHANT SERVICE.—Under the provisions of the Merchant Shipping (Colours) Act, 1889, all other ships and vessels (than the Government vessels above

referred to) belonging to Her Majesty's subjects, including all Colonial merchant vessels, are to wear a red ensign (undefaced by any badge or other distinctive mark), with the Union in the upper canton next the staff,

except such yachts or other vessels as may have warrants from the Admiralty to display other ensigns, colours or pendants.

The Red Ensign of Canada.

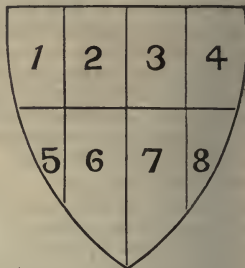

Colonial merchant vessels are allowed, under that Act, to carry a distinguishing flag, with the badge of the Colony thereon, *in addition to the red ensign*, provided such flag does not infringe Section 105 of the Merchant Shipping Act; that section strictly forbids merchantmen from wearing Naval colours, or colours resembling them, or any other than the authorized plain red ensign, under a penalty not exceeding £500 sterling.

It will be seen from the above stringent regulations, that Canadian merchant vessels, while they might wear an *additional* distinguishing flag or badge, were precluded from wearing any other *ensign* than the plain red one of the British merchant service at large. Representations were, however, made by the Dominion Government, on the recommendation of the Minister of Marine and Fisheries. As a result, the Lord Commissioners of the Admiralty, under the power vested in them by the Imperial statute, issued their warrant authorizing the merchantmen of the Dominion to wear the special badge of Canada *in the field of their ensign*. They may, nevertheless, wear the plain red ensign of the Empire, at their own option. For a country possessing such an extensive mercantile marine as does this Dominion, the desirability of universally adopting the distinguishing ensign for which authority has thus been obtained, is apparent. Canada is the first, and as yet, we believe, the only one of the Queen's colonial dominions that has been accorded such a privilege.

It will have been noticed that the power is likewise vested in the Lords of the Admiralty, of permitting *yachts* to wear special colours. Under such a warrant the Royal Canadian Yacht Club and the Royal Nova Scotia Yacht Squadron have long enjoyed the privilege of flying the blue ensign, and the Royal Hamilton Yacht Club has also been authorized to do so.

VI. THE DOMINION ARMS OR BADGE.—In the Almanac for 1894, a copy was given *in extenso* of the Royal Warrant of 26th May, 1868, by which Her Majesty granted Armorial Ensigns to the Provinces of Ontario, Quebec, Nova Scotia and New Brunswick, and declared that the arms of the said Provinces quarterly shall compose the Great Seal of Canada, etc. It was clearly pointed out that, in the face of this Royal Warrant, the addition of the so-called arms of the other Provinces is irregular and improper; and it was there stated that in the event of such an addition being made by the granting of a further Royal Warrant, the arrangement of the Provincial quarterings would be in accordance with the

annexed diagram, Ontario appearing first and eighth, to comply with the law of heraldry requiring an even number of quarterings. Moreover, if the devices of the other Provinces should be adopted into the national arms, some of them would require to be new compositions, the badges now in use being of an entirely different order of heraldry from the arms of the four

original Provinces and quite incongruous for the purpose of combination in one coat-of-arms.

The only Canadian coat-of-arms in existence is accurately shewn in the accompany plates, and the only lawful Canadian ensign; the placing of any other design, or addition thereto, upon the fly of the British flag, or the use of a Dominion badge of *any larger proportion* to the size of the Union Jack in the upper part of the flag, is absolutely incorrect, and any such improper flag, if hoisted upon a vessel, would be contrary to law, and render the owner liable to a heavy penalty.

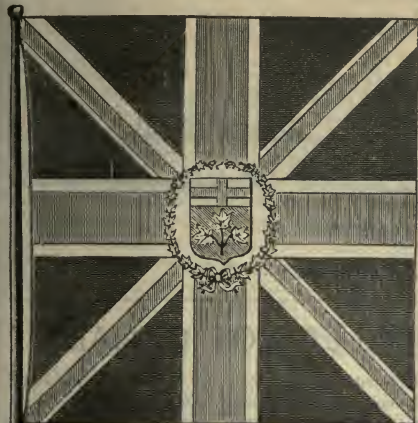

Flag of the Governor-General.

VII. THE GOVERNOR-GENERAL, among the other dignitaries of the Empire, is entitled to use a special distinguishing flag; and it may be here noted that a confusion of ideas upon this point has led to all the erroneous flag-making and flag-depicting in the Dominion. The Governor-General is authorized to use a plain Union Jack, *in the centre of which*, upon a white ground or disc, surrounded by a green garland, surmounted by a crown, is the Dominion coat-of-arms.

The garland laid down in the Admiralty book of flags, for the distinguishing flags of *all officials*, is of laurel. Upon the recommendation of our Government, however, on a report of the Minister of Marine and Fisheries, a garland of *maple* leaves for the Governor-General's flag received Imperial sanction in 1870; above the garland is the crown.

Lieutenant-Governors of Provinces have, as their distinguishing flag, the Union Jack with the coat-of-arms

Flag of the Lieutenant-Governor of Ontario.

of their Province on a white ground in the centre, surrounded by the maple-leaf garland, but *without* the surmounting crown.

VIII. IN CIVIL LIFE.—It will have been seen from the foregoing, that there are three forms in which the Dominion arms are authorized to be worn upon flags: in the centre of the Union Jack, as the official distinguishing flag of the Governor-General; in the field of a blue ensign, by our Government vessels; in the field of a red ensign, by the Mercantile marine of Canada. Reasoning by analogy, and as a matter of usage in default of any legal regulation, it is very evident that, leaving all the distinguishing flags of the various Imperial and Dominion authorities to their proper uses, the special red ensign of Canada is the only appropriate flag for all civic and unofficial display within the territory of the Dominion.

IX. UPON THE PARLIAMENT TOWER, at Westminster, by a regulation made during the session of 1894, the National flag is now ordered to be flown throughout the session. The writer has received, from Her Majesty's Office of Works, in reply to enquiries made through our High Commissioner, the following definite information on this interesting subject.

1.—The flag will be hoisted on all days when Parliament sits.

2.—It will be flown from 10 a.m. until sunset.

3.—The flag to be used on all ordinary occasions will be the plain Union Jack.

4.—The Royal Standard will be substituted for the Union Jack on those occasions when the Queen enters the building, and, whether Parliament be sitting or not, on the following Royal anniversaries, viz:—

The Queen's Birthday (actual and official);

The Queen's Accession;

The Queen's Coronation;

also on special occasions, such as Royal Weddings, etc., to be determined from time to time as occasions arise.

It is much to be hoped that the patriotic usage thus adopted in England may be followed in Canada. In order, however, that the Canadian coat-of-arms may be displayed, *together with* the Union Jack of the Empire, the following modifications are suggested:—

(a).—When the Governor-General opens and closes the session of Parliament in person, His Excellency's distinguishing flag to be hoisted when he enters the building, viz:—the plain Union Jack, of proper dimensions, bearing the Dominion arms in a shield on a white disc, surrounded by the maple garland, surmounted by the crown, in the centre of the Jack.

(b).—On all days when Parliament sits, the red Ensign, with Dominion arms in the fly, to be hoisted. This is now done only when Parliament meets and closes and on special occasions such as National holidays; and it is

the erroneous flag, so commonly everywhere displayed at that.

(When the Intercolonial Conference met at Ottawa, in 1894, the House being in session, there floated from the Parliament tower, from the Departmental blocks, and from half of the public and private buildings in town, a collection of ensigns, with the Dominion badge in all forms of incorrectness, garlands, and the Dominion badge, in many case, about twice as large as the Imperial Union Jack itself!)

(c).—The Royal Standard to be substituted for the red Ensign on the Royal anniversaries.

THE FOLLOWING PRACTICAL POINTS are matters of general interest:

1. *Official Devices.*—The use of a crown, and the lion and unicorn, which is frequent in official documents of the Province of Ontario, in union with the coat-of-arms of the Province, is entirely unauthorized and incorrect. There are no such appendages as crest, supporters or motto to the arms of the Dominion or those of the Provinces. The same error is made by some departments of the Dominion Government at Ottawa, in coupling with various departmental designs the Royal supporters, mottoes and crown.

2. *Flag Hoisting.*—The defective make of many flag-staffs, the sheave being placed in the body of the mast, some way from the top, which is further lengthened by a gilt ball or spear, causes the flag, especially if carelessly attached to the halyards, to hang down in a most slovenly manner, having almost the look of being at "half-mast." The ship-shape fashion is to have the flag-staff surmounted by a "truck" or circular cap, *flat*—on the under side at least. In this truck is the sheave; in the case of a small staff and light flag, even two holes, rounded out quite smoothly in the truck, for the ascending and descending parts of the cord to run in, will suffice. Then, if a little trouble be taken to attach the flag closely to the halyard at the upper end, it will be found to run chock up to the mast-head, and have a neat and fitting appearance that will strike the eye at a glance.

3. *Reversing the Flag.* Union down, in addition to half-masting it, as a sign of grief or mourning, is quite incorrect. This is a signal of distress, *calling for assistance*, and is hoisted at the mast-head, or wherever most conspicuous; its inappropriateness as a mark of respect is therefore self-evident.

4.—*Hoisting one National flag under another*, on the same halyards, on occasions either of public rejoicing or public mourning, is a mistake which cannot be too clearly explained or too strongly deprecated. On several occasions this has led to great ill-feeling, where only courtesy was intended. Flags so displayed denote a vanquished foe, and they are thus hoisted over prizes taken in time of war. In token of courtesy, the flags should either be hoisted on separate flag-staffs, or exactly side by side if flown from the same staff.

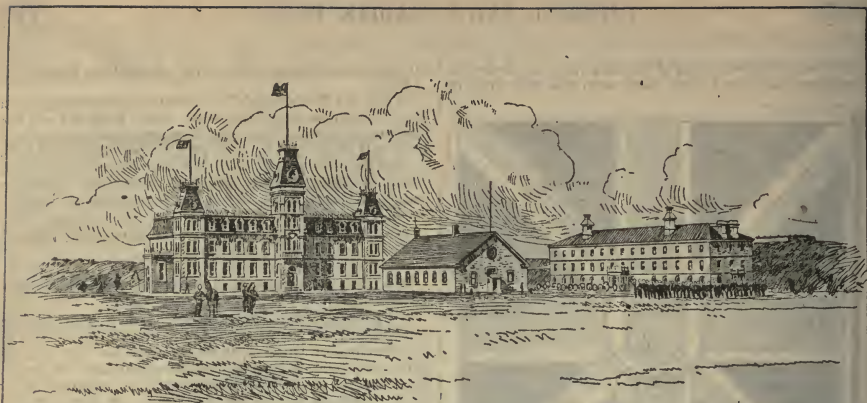

5.—*Colours in Foreign Ports.*—The following regulation, extracted from the Merchant Shipping (Colours) Act, 1889, is clear and explicit:—

A ship belonging to any subject of Her Majesty shall, on a signal being made to her by one of Her Majesty's Ships, and on entering or leaving any foreign port, and if of fifty tons gross tonnage or upwards shall also on entering or leaving any British port, hoist the proper National Colours.

If default is made on board any such ship in complying with the requirements of this section, the Master of the ship shall incur a penalty not exceeding one hundred pounds.

Being thus required by law, under a heavy penalty, to hoist her "proper National colours," on entering a foreign port, a British vessel is perfectly within her right in flying them during the whole of her stay. Hoisting the flag of the other country at the fore is a purely *voluntary* compliment, however customary it has become with international packet-boats. A British merchantman is only bound to carry, and to display upon proper occasions, her own National colours.

6.—*Special Colours for Yachts.*—In the ALMANAC for 1894, the rules for obtaining Admiralty Warrants for wearing the blue ensign, etc., were given in detail. These applications should be sent through the Canadian Department of Marine, in order to have the Minister's recommendation.

THE ROYAL MILITARY COLLEGE OF CANADA.

Founded by a Liberal and fostered by a Conservative Administration, organized by an Imperial Officer with a couple of Military Professors, and brought to its present high state of efficiency by a succession of staffs of Imperial and Dominion officers working together—some of them Graduates of the institution itself—the Royal Military College of Canada has attained a standard and done a work of which Canadians may be proud. The Earl of Derby, in paying a farewell visit to the College at the end of his term of office as Governor-General of Canada, and in congratulating the staff and the cadets upon their connection with an institution which had deservedly won a high reputation, was pleased to record his opinion that "this College affords opportunities for preparation for civil and for military life not excelled by those of any British or continental school." This high reputation is not confined to Canada, the standard of general and military education acquired by its cadets having been fully recognized by the Imperial authorities, not merely in the granting of four commissions in the army annually, one in each branch of the service, to graduates of the year, but in extra commissions thus bestowed from time to time; on one occasion twenty-six such additional commissions (six Royal Artillery, ten Royal Engineers and ten Infantry) having been simultaneously placed at the disposal of Cadets of the College. Not long ago the Governor of Queensland sent for full particulars as to the organization, regulations, etc., of our College, with a view to its imitation in the establishment of a similar institution for the Australian Colonies. This spontaneous recognition abroad shows how thoroughly, though so unostentatiously that our own people hardly realize it, the work of the Royal Military College of Canada has been done.

The Royal Military College plays an important if unobtrusive part in connection with the great problem of Imperial Defence, the solution of which is being steadily arrived at, however gradual and deliberate may be the steps by which it is reached. The secret of success of an Army in war lies in the co-operation of all its parts towards the common object of the whole. It is evident that such co-operation cannot exist to the fullest extent when the elements which form the parts are in themselves diverse, and when the differences which must necessarily arise in individuals, from causes of birth, education, early associations and language are

not counterbalanced by the personal acquaintance and contact which alone teach men how to value the good qualities and to respect the idiosyncracies of their fellow-men. Instances are not wanting in history, in which grave national interests have been compromised, from the want of mutual understanding between different men, each of whom, while ardently loyal to the same cause, was unable to measure correctly the qualities and capacity of the other. On the one side there may have been a lack of thorough confidence, or on the other a too great readiness to interpret as a personal slight that unbending manner which is often the outward expression of a naturally stern sense of duty, and of an established habit of command. Such causes of friction are rapidly disappearing from all the elements which make up the defensive force of the British Empire. British Officers have acquired a cosmopolitan character that was unknown in the Army a quarter of a century ago, while men born in the Dominion and other Colonies, and devotedly attached to the land of their birth, are learning to look beyond purely local interests, and are assuming a habit of thought more befitting citizens of a world-wide Empire. Towards this development on both sides the Royal Military College of Canada is largely contributing. In the course of the comparatively short period of its existence, it has sent some sixty Officers into the Imperial Army. Of this number some have brilliantly distinguished themselves, some are rising to positions of high rank and re-

sponsibility, while all have, by an adherence to the motto of their College, "Truth, Duty, Valour," helped to strengthen in the minds of their brother Officers of the Mother Country, feelings of confidence, respect and affection for Canada. In like manner a constant stream of Imperial Officers has been passing through the Royal Military College in the

capacity of military Professors and Instructors. These too, on their side, help to keep up in Canada the ever-growing feeling of sympathy between Canadian and British Officers. Moreover, of those graduates who have not entered the British Army, some are serving in

the Permanent Force, and all hold commissions in the Active Militia of Canada. Nothing is more marked than the feeling of comradeship which arises amongst soldiers, even when they belong to entirely different nations; and this shows itself in cases where, but yesterday, they may have been arrayed against one another, in obedience to their country's command, in opposing armies. How strong, then, must be the bond that unites those who wear the same uniform, who owe allegiance to the same sovereign, and whose characters have been formed under the influence of a common system of training! The steady growth of elements thus united must tend to bring about a condition wherein it is easy to foresee the development, in widely separated parts of the Empire, of military forces which, while retaining local characteristics, will possess a homogeneous character, arising from mutual understanding. By such means their complete co-ordination will be possible—in a word, they will become "Imperial" forces in the broadest and truest sense of the term.

The organization of the Royal Military College is, as laid down by the Regulations passed under authority of the R. M. C. Act, that of a Battalion, of which the Commandant is the Commanding Officer, the Military Professors the Officers, the senior class of Cadets the Non-commissioned Officers, and the junior classes the Privates. It is included among the Military Forces of the Dominion, and is placed under the Officer Commanding the Dominion Forces. Thus the Gentlemen Cadets become early imbued with the regimental spirit so dear to soldiers. The course of training and instruction is eminently practical, and especially is this the case in the engineering and topographical studies. The effect of such practical training is not only of value to those graduates who embrace a military career, but of great advantage to the country at large. A considerable number of graduates have been employed on topographical and hydrographical work under the Government, as well as in connection with private undertakings; and, owing to their special instruction in military surveying, they form a body of military topographers of the utmost value in connection with the

defence of the Dominion. Many likewise have been employed in railway construction, in which their habit of military organization has marked them out as specially fitted for the control and direction of bodies of workmen.

To quote the Commandant's last published official report, "recently as the College has been established, its students are to be found in the Church, practising law, medicine, agriculture and civil engineering, engaged in commerce, railway management, and in private and public companies, employed in postal departments, in ordnance factories, in the Dominion Customs Department, the Geological Department, the Marine and Fisheries Department, and serving in the North-west Mounted Police Force, in British Colonial employment, in the Canadian Permanent Militia, and in Her Majesty's regular forces."

It seems almost invidious to refer to any particular instances among the many who have quickly attained lucrative and important positions in life since graduating; but as individual instances that occur to the writer at the moment may be mentioned Lieutenant Eugène Panet, Royal Engineers (a son of the Deputy Minister of Militia and Defence), who has been stationed in Burma, and drawing the high emoluments of service in India; Capt. Duncan Macpherson, one of the Canadian Pacific Railway Asst. Divisional Engineers; and Lieut. F. W. White, the Architect, Engineer Branch of the Militia Department.

In St. George's Cathedral at Kingston is a memorial brass, before which the Canadian visitor may well pause with mournful pride to peruse the noble record of three young graduates of our Military College during their only too brief career. This tablet has been erected by their own College friends and comrades, and by other friends in the Royal Engineers, who asked to join in the memorial, which was thus raised from a Colonial to an Imperial tribute to the memory of these young Canadians who all reflected honour on their old College, and well upheld its good motto: "Truth, Duty, Valour." The following brief but heroic record is inscribed thereon:—

A pleasing instance of the College spirit is to be found in the Royal Military College Club of Canada, composed of ex-Cadets, its objects as set forth in the

constitution being "the bringing together of its members for their mutual benefit and support; the encouragement and maintenance of that brotherly and friendly

feeling which has always existed among cadets; and the advancement of the welfare of its members, the Cadets, and the Royal Military College generally." The President of the Club in 1894 has been Lieut. R. W. Leonard; the Hony. Secretary-Treasurer is Capt. E. F. Wurtel. Among other things, a Reference Book is printed from time to time for the members' use, containing every information about those who have passed through the College, their dates of joining and leaving, present occupation, address, etc.; and it was resolved at the last annual meeting to ask the graduates employed in different work in various parts of the world for letters on matters of professional interest gathered from their experience, for publication as occasional papers of the Club.

Space forbids any description whatever of the rise and progress of the institution, the first organization of which was carried on by Col. Walker Powell, Adjutant-General of Militia in the year during which he commanded the Force, no Imperial General Officer having been then selected to succeed Sir E. Selby Smyth, who had returned to England. Those interested may trace its history in the annual reports of the Department of Militia and Defence from the College opening in 1876, under its first Commandant, Lieut.-Col. Hewett, R. E., to the present day, under Major-General Cameron, C.M.G. Specially interesting accounts will be found in the reports made by the Board of Visitors (of which Col. Powell is the Chairman) in the Militia Reports laid before Parliament in the sessions of 1880, 1882 and 1890.

A list showing the names, rank and duties of all the Royal Military College staff will be found in the Militia List, on page 81 of the ALMANAC.

THE OBJECTS OF THE COLLEGE

are to impart a complete education in all branches of Military Tactics, Fortification, Engineering and general scientific knowledge in subjects connected with, and necessary to, a thorough knowledge of the military profession, and for qualifying Officers for Command and for Staff appointments.

(a) In addition to the foregoing primary objects of the College, the course of instruction is such as to afford a thoroughly practical, scientific and sound training in all departments which are essential to a high and general modern education.

(b) The Civil Engineering course is complete and thorough in all branches. Architecture forms a separate subject.

(c) The course of Physics and Chemistry is such as to lead towards Electrical Engineering, Meteorological work, and other departments of applied science.

(d) The obligatory course of surveying includes what is laid down as necessary for the profession of Dominion Land Surveyor. The voluntary course comprises the higher subjects required for the degree of Dominion Topographic Surveyor. Hydrographic Surveying is also taught.

Graduates of this College are exempt from the Civil Service qualifying examination; they are entitled to examination for Dominion Land Surveyor after one year's service under articles; also to admission as student-at-law or articulated clerk in Ontario on the same terms as a graduate in the Faculty of Arts, and to be similarly called to the Bar; and they are accepted as matriculants by the College of Physicians and Surgeons of Ontario on payment of the usual fees.

REGULATIONS FOR ADMISSION.

Only persons who are British subjects and who have resided, or whose parents have resided, in Canada for three years immediately preceding the date of examination, shall be eligible as candidates for admission as Cadets, and all such persons shall be eligible. Short periods of absence in Europe for purposes of education to be considered as residence.

Admission to the College as Cadets will be granted to the successful candidates at an open competitive examination.

Boards will be appointed in each Military District to supervise the examination of candidates.

No person will be accepted as a Cadet who is not considered eligible as to stature and physical power. The limits of age will, for the present, be from 15 to 18 (that is, over 15 and under 18) years; candidates being required to be within those limits on the 1st day of *January preceding the examination.*

Each candidate for admission must send to the Adjutant General of Militia, Ottawa, not less than one month before the examination is held:—

(a) An official covering letter, giving name, post office address, inclosing the following certificates, and stating his desire to have his name entered on the list for the next examination.

(b) A certified abstract, in duplicate, from the register of his birth (giving date and place), or in default, a declaration in duplicate by one of his parents or guardians before a Magistrate, giving his exact age, with date and place of birth.

(c) A certificate of good moral character, signed by a Clergyman of the place of worship which he usually attends, or by the head of the school or college at which he has received his education for at least the two preceding years.

When a candidate who has once been examined applies to be examined again he will only be required to forward a certificate of his moral character for the interval between the two examinations.

The number of trials allowed will not exceed three.

Successful candidates are required to join the Royal Military College within the year in which they pass their examination.

PAYMENTS AND ALLOWANCES.

Each Cadet will be required to pay annually in advance on or before joining or rejoining the College a Fee of \$200 as a contribution toward board and instruction during each year. (Term: 1st September to 30th June.) A Cadet withdrawing during the year will not be entitled to a refund of any portion of the Fee.

In addition to the Fee for board and instruction, each Cadet will be required to pay the first year, in advance, a deposit of \$200 to cover value of articles which he provides as mentioned below, and every succeeding year, in advance, a deposit of \$150 for the same purpose. The deposit of \$200 or \$150 may be paid in equal sums, one on or before the opening or reopening of the College in September, and the other on or before the 1st of March following, on the understanding that no Cadet will be permitted to overdraw his account at any time.

Each Cadet while at R. M. College will be provided, free of expense, with lodgings and attendance, and also with the use of furniture, linen (bedroom towels ex-

cepted), and plate, requisites for dormitory, class and mess room.

Each Cadet will, while at the R. M. College, be provided, free of expense, with the use of such arms, accoutrements and ammunition as may be necessary.

Each Cadet will be required to provide himself with, and keep in repair, at his own expense, such articles of uniform, boots and personal clothing, also such books, instruments and educational apparatus as may be determined upon.

Cadets who, under special circumstances, may be permitted to remain at the College more than 48 hours after the commencement of the summer vacation, shall pay the sum of one dollar and twenty-five cents per diem for board and lodging. No charge shall be made to Cadets who prefer to remain at the College during the suspension of studies at Christmas and Easter.

Cadets who may be permitted to withdraw from the Royal Military College without completing the full term of their engagement will, before receiving their final discharge, be required to pay the sum of one hundred dollars, in addition to any amount owing by them to the Department of Militia and Defence, or to the College funds.

In the case of a Cadet who is absent a whole term on account of sickness or rustication, a payment of \$50 shall be required of him for the privilege of his name being kept on the rolls of the College and for vacancy being guaranteed at the commencement of the next term.

An allowance for travelling expenses at the rate of four cents a mile, for the number of miles *beyond* 500 necessarily travelled between the Headquarters of the Military district in which he resides and the College, will be paid to each Cadet at the time he is first admitted, and a similar allowance for travelling expenses to the Headquarters of the same Military District will be paid to each Cadet who has completed the full period of College course and obtained a certificate of good conduct.

The above comprise the *main points* of the published Regulations respecting admission to the College and terms, etc. For fuller or more detailed information, application should be made officially to the Adjutant General of Militia, Ottawa.

ANNUAL EXAMINATION FOR CANDIDATES, 1895. (Militia General Orders, 1st Sept., 1894, in Canada Gazette.)

SUBJECTS AND BOOKS.

The annual examination to be held in the year 1895, for Candidates desiring to be admitted as Cadets to the Royal Military College of Canada, Kingston, will commence at the District Staff Office, at the Headquarters of the several Military Districts in which Candidates reside, on Tuesday, the 11th day of June, 1895—the medical examination to be held the day previous. The subjects and books in which Candidates will be examined are as follows :—

OBLIGATORY OR PRELIMINARY EXAMINATION.

(1) Mathematics.	Marks.
(A) Arithmetic, including vulgar and decimal fractions, simple and compound proportion, simple and compound interest, partnership, profit and loss.....	500

(B) Algebra, including simple equations	500
(c) Geometry, first book of Euclid, or its equivalent.....	500
If Euclid is not used as a text book, the candidate is to mention at the head of his answer paper the name of the author of the text book used.	
(2) (A) Grammar, English or French, Writing English or French correctly, and in a good legible hand from dictation	500
(B) Composition, as tested by the powers of writing an essay, precis, or letter, in English or French	500

- (7) Drawing—Copies from the flat; shaded. Simple object drawing..... 1000
- (8) Elementary Geometrical Drawing..... 1000

Candidates are permitted to use at their examination on this subject (8) a drawing board and such instruments as they choose. The instruments considered as necessary, but not indispensable, are: a pair of compasses with shifting-leg and pen and pencil points, a flat ruler, a pair of parallel rulers and a right-angled triangle.

No "Voluntary" subject, except mathematics and drawing, shall gain a candidate any marks, unless he

obtains a minimum of one-third of the marks assigned to that subject.

The marks gained in the "Obligatory" subjects will be added to those gained in the "Voluntary" subjects to make a second total.

It is to be understood that English-speaking candidates use the papers prepared in that language, and that French-speaking candidates use papers prepared in the French language. The object of this permission is to allow candidates to write their examination papers, except where, from the nature of the question, it is otherwise required, in English or French, whichever may be the language with which they are most familiar.

The Standard of knowledge of English required from French speaking candidates for the present, will be:—To write and speak English sufficiently to understand and be understood in that language.

Candidates should make application to the Adjutant General, Ottawa, by 1st May, in order that arrangements may be made for their examination in June.

HER MAJESTY'S REGULAR FORCES IN CANADA.

As soon as the Confederation of the principal Provinces of British North America had become an accomplished fact, the Imperial military authorities commenced their preparations for transferring to the newly-created Department of Militia and Defence of Canada all the fortifications and barracks, and the many valuable military properties throughout the country held for defensive purposes by Her Majesty's Government. These properties were all made a free gift to the Government of the Dominion; such of them as are still held in the Queen's name for present purposes or future plans of defence are under the care of our own War Department; and the garrisons on duty at the different points throughout the country, although bearing the Imperial distinction of Royal Regiments, and wearing on their equipment Her Majesty's cypher V R.I., surmounted by the Imperial crown, are our own regular Troops, maintained and paid by the Dominion. This small body of regulars, backed by some 30,000 Active Militia, duly armed, equipped and drilled at our own expense, and ready for service throughout the country upon any emergency, forms at present Canada's organized quota towards the scheme of Imperial defence.

One fortress, however, upon Canadian soil, continues to be occupied by the regular Forces of Her Majesty; and that fortress, Halifax, is perhaps one of the most important in the world. It defends, in the first place, that magnificent harbour which forms the head-quarters, in the Dominion, of the North American and West Indian squadron of Her Majesty's fleet, and where are the Dockyard and Naval Establishments, also under Imperial control. Within that spacious and amply defended harbour could rendezvous in safety, moreover, in the happily remote contingency of our coasts being swept by a hostile fleet, all the mercantile marine of the Atlantic seaboard. This important garrison forms the nucleus of the whole defensive system of the Maritime Provinces, and furnishes the central point for the mobilization of the local Militia force in the event of war. The measures for such mobilization are being gradually developed, and already several corps of local Militia have been associated with the regular British troops towards that end. The Royal Schools of Military Instruction maintained by the Militia Department in other Provinces of the Dominion have recently been supplemented by arrangements, sanctioned by the Governor-General in Council, concurred in by the General Officer commanding Her Majesty's Forces, and published in Militia General Orders on 18th May, 1894 (*Canada Gazette*, 19th May), for the establishment of Schools of Military Instruction in connection with the Imperial troops at Halifax, as follows:

(a) At Wellington Barracks, for instruction of all ranks of the Canadian Artillery or Infantry Militia in Infantry drill, duties and interior economy.

(b) At the Artillery Park Barracks, for the instruction of Officers of the Canadian Artillery Militia in gunnery.

The courses of instruction are for one, two, and three months, under special regulations in each case. Militia Officers attached to the Imperial Forces for discipline and instruction receive from Militia sources pay at the rate of \$1.50 per day, but no other allowances, nor will they be granted rations or quarters; a bonus of \$20.00 is granted to an officer obtaining a 2nd class certificate, and \$60.00 for a 1st class. Non-commissioned officers and men will be attached to the Imperial Forces for quarters, rations, instructions and discipline, and will be paid 50 cents per day from Militia sources.

The Military School opened in the autumn of 1894 and was well attended by Militia Officers of the Maritime Provinces.

The following are the fortifications at Halifax; the nature and extent of their armament is not a matter of public information:

The Citadel, in the centre of the city.

Fort Charlotte, on George's Island, in the centre of the harbour.

Point Pleasant Battery, at the seaward extremity of the peninsula on which the city stands.

Fort Ogilvie and Fort Cambridge, in Point Pleasant Park. York Redoubt, on the western headland at the mouth of the harbour.

Fort Macnab and Ives Point Battery, on MacNab's Island, in the centre of the harbour's mouth.

Fort Clarence, on the Dartmouth side of the harbour. There is also a complete system of submarine mining defence of the harbour against Naval attack, under the direction of the Royal Engineers.

The Queen's Wharf, just below the Citadel, Ordnance Yard and Wharf a little further up the harbour, the Lumber Yard south end of Hollis street, Wellington (Infantry) Barracks at the north end of the city, Artillery Park and Engineers Park Barracks, at the southern foot of the Citadel hill, the Military Hospital and Garrison Chapel on the north side of the Citadel, and the Military Prison on Melville Island, in the North-West Arm (of the harbour), are the remaining properties under military control.

Head-Quarter House "Bellevue," is the official residence of the General Officer commanding the Troops.

The strength of the garrison maintained at Halifax was formerly much greater than it is at present. The different arms of the service now stationed there are:—Royal Artillery, Nos. 3 and 23 Companies; Royal Engineers, 18th Company, Fortress, 40th Company, Submarine Miners; 1st Battalion, the King's Liverpool Regiment (Infantry); with detachments of the Army Service Corps, Medical Staff Corps and Ordnance Store Corps.

The following is the list of the Staff and other Officers of the garrison of Halifax, revised to October, 1894.

Steavenson; *Quartermaster*, Hony. Lieut. T. H. Pollitt.

THE FORTIFICATIONS AND GARRISON OF ESQUIMALT AND VICTORIA, B.C.

For the first time in the history of the Dominion, the Imperial and Canadian Governments are jointly engaged in fortifying a portion of Canadian territory. As the result of very careful consideration on both sides, the Dominion Government has for that purpose entered into an agreement with Her Majesty's Government, which has been ratified by a vote of the necessary funds by the Parliaments of the respective countries. This patriotic undertaking has been wisely regarded as outside of the sphere of party politics; for that very reason it has not been the subject of much public comment or discussion; but it has undoubtedly received the loyal approval of the people at large. From what has been publicly stated of this matter, however, both in the British Parliament and our own, we are now in a position to present our readers with the following valuable synopsis of information on this interesting subject.

Under this joint arrangement, which is an important step in the direction of a scheme of united action for the defence of the Empire, Canada contributes a portion of the capital expense of the undertaking, and further assumes the cost of maintaining the necessary garrison of regular troops, while Great Britain, in addition to her share of the capital expenditure, has provided the heavy and costly armament and the submarine mining material, and pays the detachment of Royal Engineers under whose direction the work is being carried out. Great Britain also provides the regular garrison, which, however, as above stated, is under Canadian pay; and thus, for the first time in our history, these British troops, transferred to the Government of Canada and paid out of the Dominion exchequer, have become really *Imperial* troops in the true sense of the word. Similarly, whenever British troops are transferred to the service of the Government of India, they are paid out of the funds of that country; and they are then looked upon as doing duty more strictly as an Imperial force than when they are simply serving abroad under the pay of the home government.

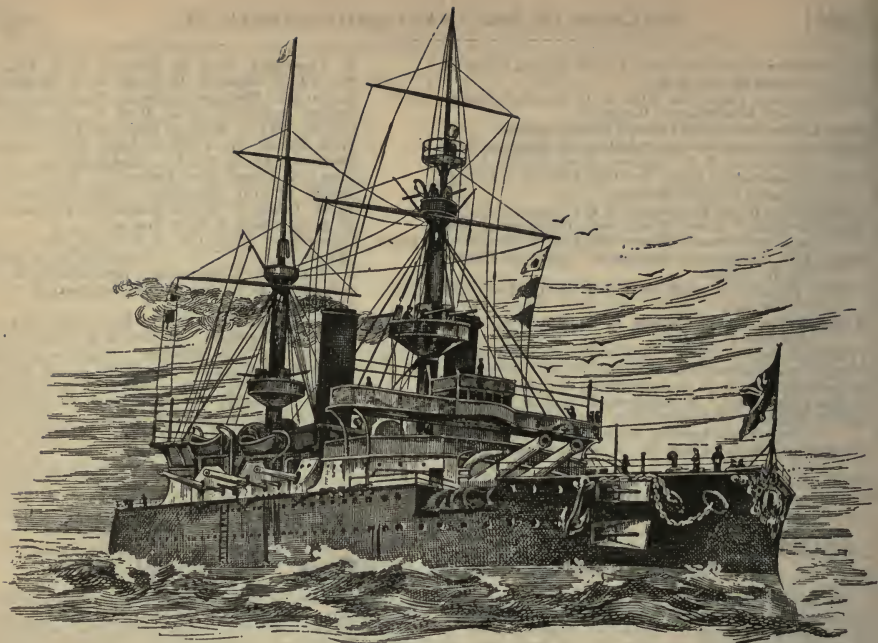

Esquimalt, besides being the coaling station for the Squadron of Her Majesty's ships on the Pacific station, and containing the Naval and Victualling Yard and Naval Hospital, affords direct protection to Victoria, B.C., and indirect protection to the harbour of Vancouver City and the coast. Here, likewise, is the large Graving Dock, which was constructed partly by Imperial subsidy, partly by private enterprise. The proper defence of this important point against attack by a raiding force, whether naval or military, is therefore a matter of the utmost necessity. And it may here be noted that such a fortified coaling station as this will be not only protects the country within range of its guns, but is a safeguard to all the coast along which an enemy might operate freely, were he not deterred by the obvious danger of leaving a fortified harbour between himself and his base of operations.

The plans for the works have been prepared in England, under the direction of the Imperial Defence Committee, after careful examination of the locality by officers of skill and experience sent out for that purpose. Neither the nature of the works nor the detail of their armament is a matter of public information. Their construction is under the charge of Major H. H. Muirhead, Royal Engineers, with Lieutenant H. W. Gordon and a detail of non-commissioned officers and men of that corps, the Marine detachment being also employed on them.

The barracks provided by Canada as part of her contribution to the joint undertaking, are those which were built for "C" Battery, Royal Canadian Artillery, which was withdrawn on the recent reorganization of that regiment. Their new occupants are a detachment of one hundred Royal Marine Artillery, sent out from England after going through a special course of instruction. The detachment is officered by Major and Bt. Lieut.-Colonel G. A. L. Rawstorne and Lieutenants F. N. Templer and G. E. Barnes, R.M.A., borne on the books of H.M.S. "Royal Arthur," flag-ship on the Pacific station. Being paid by the Dominion, however, these Imperial troops are under the orders of Major General Herbert, commanding the Canadian Militia, for all purposes of local administration and service. This Marine Artillery detachment will have charge not only of the new forts and guns, but also of the submarine mining defence of the harbour and straits. They are likewise available for instructional purposes, since the closing of the School of Artillery in connection with "C" Battery, R.C.A., Major General Herbert having taken advantage of the presence of these highly trained Imperial troops, as of those stationed at Halifax, to supplement the number of our own schools of military instruction.

By Militia General Orders of 11th August, 1894, the arrangements are promulgated for this new School of Artillery. The courses are:—(1) An annual course of three months, limited to sixty of all ranks, of the B.C. Battalion of Artillery. (2) An annual course of one month for the further advanced instruction of officers. Bonuses ranging from \$15 to \$50 are granted for certificates of qualification obtained. Officers and men of Vancouver and New Westminster companies receive free transport to and from Victoria, and an allowance of \$2 per diem for officers and \$1 for N.C. officers and men, in lieu of pay, quarters and subsistence.

In concluding this sketch, it may appropriately be observed that the British Columbia Battalion of Garrison Artillery of Active Militia forms a large and important part of the war garrison. Thus, in case of need, would Imperial and Canadian troops be found once more fighting side by side, as they have done in the past, for the honour of the flag and the maintenance of the integrity of the Empire.

H.M.S. "BLAKE."

HER MAJESTY'S SHIPS ON OUR COASTS.

BY COLIN CAMPBELL, *Assistant Paymaster, R.N. (Retired.)*

I.—THE NORTH AMERICAN AND WEST INDIAN STATION, AND THE NAVAL ESTABLISHMENTS AT HALIFAX, N.S.

The command of Vice Admiral Sir John O. Hopkins, K.C.B., whose official title, as displayed upon the commissions, sailing orders, court-martial warrants, etc., issued by him, is "Vice Admiral in the Fleet, and Commander-in-Chief of Her Majesty's Ships and Vessels employed and to be employed on the North American and West Indian Station," extends from the 55th degree of north latitude, down the 36th degree of west longitude to Cape Orange in South America, thus embracing within its limits all the coasts of Newfoundland and Labrador, the Gulf of St. Lawrence, the Maritime Provinces and the Bermuda Islands, the West Indies and the coast of the United States, the Gulf of Mexico and the north coast of South America as far eastward as Cape Orange. Within these limits, the Admiral "by virtue of the power and authority vested in him by the Lord Commissioners of the Admiralty," exercises supreme control over Her Majesty's Ships, the number of which varies with the exigencies of the service on this station from time to time, and the requirements of British interests at other points of a world-wide Empire. The services rendered by the Queen's Ships, though well enough understood in time of war, are more vaguely thought of in time of peace; and the extent and importance of those services are perhaps far less highly appreciated than they deserve. Primarily, their duties, as described in the words of the Chaplain's daily prayer, consist in being "a safeguard unto our Sovereign Lady

Queen Victoria, and a security for such as pass upon the seas on their lawful occasions." The last vestiges of the African slave trade to the Spanish West Indies were suppressed by British gun-vessels belonging to this squadron. In time of insurrection in any British possession, as during the brief negro rising in Jamaica in 1865, Her Majesty's Ships are used both for carrying troops and landing armed parties of their own men, to restore order and maintain the supremacy of the Crown. During the American civil war, when the squadron on this station, including the stationary guard ships, numbered nearly thirty vessels, our fleet was vigilantly employed in enforcing the strict neutrality ordered by Her Majesty's Government, and in guarding against the improper use of British Colonial ports by vessels or by citizens of either of the belligerents. At other times of foreign disturbance, as during the frequent political struggles in the Central American republics, Her Majesty's Ships are sent to the disturbed districts for the protection of British interests, guards of marines or sailors being sometimes landed to protect our Consulates from insult or pillage. British interests in Cuba, during the insurrection of 1868-69, were represented by the presence at Havana of the Commodore of the Jamaica Division and ships under his orders. During the period of actual and threatened invasion of Canadian territory, by Fenian armed bodies from the sheltering soil of a professedly friendly nation, the Queen's Ships, in

addition to carrying troops, guarded different points, from St. Andrew's near Eastport on the Maine frontier, to the St. Lawrence river and waters of the great Lakes, which were patrolled by gun-boats of the squadron, supplemented by steamers hired by the Canadian government and manned from Her Majesty's Ships stationed at Quebec. During the winter of 1866-67, when engaged upon this special service, the frigate "Aurora" wintered in the ice at Quebec, while the flag-ship "Duncan" passed the winter housed-in alongside the dockyard at Halifax. The fishery protection service of Canada, after the abrogation of the Reciprocity Treaty, was at first (as described in a separate article upon that service) carried on by cruisers of the North American command, until the new Dominion was ready to assume the duty of maintaining the territorial sovereignty in Canadian waters. Up to the present time, one or more of Her Majesty's Ships is sent every summer to the so-called French shore of Newfoundland, to see that treaty rights are duly conceded to and not exceeded by the fishermen of France, and to keep the peace between them and the men of Newfoundland. The Senior Officer employed on this service, who now has three ships under his orders, was in 1890 created a Commodore of the Second Class while stationed there during the fishing season. These instances show how admirably the Naval service is adapted to the various requirements of the Empire, even during the "piping times of peace." Yet again, on occasions when different islands in the West Indies have been swept by hurricanes and inundated by tidal waves, men-of-war have frequently rendered most timely aid in bringing relief to the devastated districts. Finally, a merchantman in distress, or driven ashore by a gale, never appeals in vain for assistance, to any naval officer within reach, and a Queen's ship is ever ready to get up steam and hasten to the aid of those in peril upon any emergency. And, during all this time of peace, drill and training are carried on in seamanship, gunnery and naval evolutions, and the strictest discipline maintained, in constant readiness for the sterner duties of actual warfare.

Below is given a list of the present Squadron on the North American and West Indian Station, with their tonnage, armament, etc., and their Commanding Officers, revised to October, 1894. During the year 1895, the present Commander-in-Chief, Sir John Hopkins, will be relieved by another Admiral and a new flag-ship will take the place of Her Majesty's Ship "Blake."

The Jamaica Division of this Station is under the orders of a Commodore, who flies his broad pendant upon the stationary depot ship at Port Royal, where are a naval and victualling yard for the refit of ships, and a naval hospital. Separate sub-divisions of this division have been, upon occasion (as during the American civil war), the Bahamas, with head-quarters at Nassau, and the Gulf of Mexico, with head-quarters at Vera Cruz.

The Barbados Division is under the orders of a separate Senior Officer, whose head-quarters are at that island, with a sea-going ship, by which (and by any other vessels placed under his orders) are visited as occasion may require, or at his option subject to the Admiral's instructions, the Virgin Islands, the Windward and Leeward groups, Trinidad, Tobago, and the flourishing colony of Demerara or British Guiana on the northern coast of South America.

Bermuda has the large floating dock that was built in England, and towed across the Atlantic by men-of-war in 1869; here the largest ships of the squadron can be lifted out of the water for repairs to their hulls when requisite; here also is the spacious camber or basin built many years ago by the convicts, when Bermuda was an Imperial penal station; the dockyard, where every facility is available for refitting the ships; and a commodious naval hospital for the reception of the sick. The naval establishments at Bermuda are placed under a Captain-in-charge, who flies his pendant in a guardship or floating battery. Admiralty House at Clarence Hill is the official residence of the Commander-in-chief while his flag-ship remains at Bermuda, this being his winter head-quarters, whence he annually makes a tour of the West Indian portion of his command, accompanied by all vessels of his squadron that can be spared. These cruises of the ships in company afford also an opportunity for fleet manœuvring, combined and competitive exercises of the crews in seamanship, evolutions, manning and arming boats drill, etc.

Halifax is the summer head-quarters of the Commander-in-chief, where he has another official residence, Admiralty House, at the north end of the city, overlooking the dockyard, all these properties belonging to the Imperial Government. The Halifax graving dock, situated to the north of the dockyard, is the finest on the station. It is subsidized by the Imperial Government, under agreement made in 1886, stipulating that it should be capable of docking H.M.S. "Inflexible" with ease (the largest British man-of-war then in commission). Ships of the navy have priority of use, upon five days' notice. The dock was completed in April, 1890, and opened in the summer of that year by the docking of H.M.S. "Canada." The flag-ship "Blake" docks here on her arrival from the south in June, and before her departure for the southward again in October; the other ships of the squadron, as a rule, use the Bermuda dock, which is entirely naval property. There are also at Halifax a naval yard for refitting, and a victualling yard for provisioning the vessels of the squadron, and a hospital which is used only as temporary sick quarters during the summer months, or whenever a ship may come north and may require to use it; at such times it is under the charge of the medical officers of the flag or senior officer's ship. When none of H.M.'s Ships are in port, the Naval establishments at Halifax are under the charge of the naval and victualling Storekeeper. A list of the dockyard officers follows the naval list given below.

From Halifax the Admiral visits at his pleasure, from time to time, the various northern ports of his extensive command, where the white ensign of the Royal Navy is ever a welcome sight to all loyal British subjects, who are proud of the great Empire to which they belong, and of that flag which protects alike the coasts and the commerce of Great Britain, and of the world-wide dominions of our Empress-Queen.

II.—THE PACIFIC STATION, AND THE NAVAL ESTABLISHMENTS AT ESQUIMALT, B.C.

To the remarks upon the naval service generally, accompanying the list of the North American and West Indian Squadron, it is only necessary to add, in regard to the Pacific Station, that this command extends over the whole of the western coasts of North and South America, its southern head-quarters being at Valparaiso, Chili; the store and *dépôt* ship lies at Coquimbo. British Columbia is the only British possession in the command, and Esquimalt is the Admiral's head-quarters. Here is the Graving Dock, subsidized by the Imperial Government; H.M. Ships have the right of priority of use. Here also are the naval and victualling yard, and the naval hospital. The Hawaiian Islands are also included within the limits of this extensive command; and during the past summer, some of Her Majesty's Ships have been engaged in the somewhat ungracious task of assisting the United States cruisers to patrol the high seas in the interests of the Alaska Commercial Company, by excluding those engaged in seal hunting from a space of sixty miles from the Pribylov Islands.

The following is a list of the Ships of the Squadron, and Commanding Officers, revised to July, 1894; also the naval establishments at Esquimalt.

FISHERIES PROTECTION AND MARINE SERVICE OF CANADA.

By COLIN CAMPBELL, *Assistant Paymaster, R.N. (Retired.)*

When, in 1866, the United States Government, by the requisite formal notice, terminated the mutual privileges of the Reciprocity Treaty, the Americans at first failed to realize that they had thus voluntarily surrendered advantages of great value to their own people. A patrolling force was at once detailed from the North American and West Indian squadron which guarded the coast from the Maine boundary to the Gulf of St. Lawrence. Though they tried hard to distort its meaning, the Americans found themselves, for once, confronted by a plain and straightforward Treaty with Great Britain, that of 1818, under which their fishermen are permitted to resort to British territorial waters and harbors to obtain wood and water, for shelter and repairs—"and for no other purpose whatever," with the exception of the Magdalen Islands and the Labrador Coast from Natashquan northward, where they enjoy the same rights as our own fishermen, and of a part of the shore of Newfoundland. Failing to find, under these plain provisions, permission to land and tranship cargoes, or to obtain supplies of bait, ice, etc., in Canadian ports, the American fishermen next claimed the right of following all the indentations of the coast, right up to the three-mile limit of territorial sovereignty even in the land-locked harbours and inlets, although the United States Government claims sovereignty within the headlands of bays of great extent upon their own coast—not to mention a recent assumption to rule the waves of a large portion of the Pacific Ocean! Upon our coasts, however, as a matter of fact the American fishermen have only been excluded from bays that are ten miles or less in width from cape to cape; in certain specified bays, nevertheless, which exceed that limit, the most notable being the Bay of Chaleurs, some eighteen miles wide, Canada still maintains the territorial limit at a line drawn across the mouth of the bay, and for three miles to seaward of that line all the way across. Great moderation was shown by Her Majesty's Government in maintaining territorial rights, each cruiser being at first required to give any delinquent three separate warnings before making a seizure, although the Americans knew very well the risks they ran in fishing within the three-mile limit. In subsequent years two warnings were given before a seizure of the vessel was made, then one; finally seizure for the first offence was ordered. The vessels caught trespassing are handed over to the regular Admiralty Courts of the Provinces, and, upon proof of the offence, are confiscated and sold for the benefit of the Crown; all proceeds of such sales are now paid into the Dominion Exchequer. At the same time the Americans are permitted to take out licenses, allowing them to ship men, purchase bait and provisions, etc., and tranship cargoes, but not to fish in Canadian waters, that is to say, inside the three-mile limit; for this privilege a charge of \$1.50 a ton is made. The revenue derived from this source is paid to the Dominion Government.

The services of Her Majesty's Ships, although the benefits have thus accrued entirely to Canada, in pre-

serving the in-shore fisheries for use by our own people, and in forcing the Americans to pay for such licenses as were granted, were always gratuitously rendered; but the officers and men shared as prize-money, under the usual naval regulations, the proceeds of sales of any vessels whose capture was the reward of the cruisers' vigilance.

Under the Washington Treaty, and upon the award of arbitrators who met at Halifax, the Americans again obtained the privilege of participating in the fisheries, for a term of twelve years, on a payment of \$5,500,000, which was very grudgingly made, although statistics amply proved the value of the concession; and they have, since the termination of that period, shewn no disposition to pay for international privileges which for once they have failed to get for nothing. The five-and-a-half millions thus obtained accrued also to the benefit of the Dominion, Newfoundland receiving a proportionate share out of it.

The United States having, by formal notice, terminated the Fishery provisions of this Treaty, Canada, in 1886, organized her present Fisheries Protection Service, and again excluded the American fishermen. Diplomatic correspondence ensued, and a fresh Treaty was negotiated in 1888, which, however, the United States Senate declined to ratify. In connection therewith, and as a *modus vivendi*, a return to the license system was adopted, at first under an annual, now by a permanently permissive statute of the Canadian Parliament; and the duty of protecting the Fisheries, which formerly was performed by ships of the Royal Navy, supplemented by only one or two Canadian vessels, is now entirely carried out by the regularly organized Government Marine Service of the Dominion. No warning is given before seizure. Moreover, trespassing vessels were formerly not seized unless they could actually be caught within the territorial waters; but our cruisers are now ordered to follow any vessels observed in *flagrante delicto* and to capture them even upon the high seas.

The Fisheries Protection Service is organized and carried on under the Canadian Government Vessels Discipline Act (chap. 71, Revised Statute of Canada). A very sensible and practical arrangement has been effected, under the administration of Sir Charles Hibbert Tupper, the present energetic Minister of Marine and Fisheries, with the concurrence of the Minister of Trade and Commerce, by which the Revenue cruisers of the Dominion are also placed under the orders of the Officer commanding the Marine Service, for maintenance, uniforming, discipline, etc., this Department being further charged with the Light-houses, buoys, beacons, and Sable Island life-saving service of the Dominion.

Commander Osprey G. V. Spain, a retired Officer of the Royal Navy, who served at Alexandria, and in the operations against the Mahdi in the Eastern Sudan and at Suakim (for which services he wears the Egyptian medal and clasps and the bronze Star of Egypt), and who holds certificates in Seamanship, Navigation, Torpedo, Gunnery and Pilotage, also a Mer-

chant Master's certificate, was acting Commander of the force under the late Commander Gordon, and on the death of that officer in 1892, was promoted to be Commander of the Fisheries Protection Service of Canada.

All the Dominion Government vessels are, as explained in a separate article, entitled to wear the blue ensign, with the Canadian coat-of-arms in the "fly" or field; and the Fishery Protection cruisers have the additional distinction, under special warrant from the Lords Commissioners of the Admiralty, of wearing the "whiplash" pendant which is the distinguishing mark of a man-of-war.

The uniform of this service has been arranged upon a scheme drawn up with great care by Commander Spain under the direction of Sir C. H. Tupper. Modelled strictly upon the uniform of the Royal Navy, it is at the same time so skillfully differentiated as to be clearly distinguishable by Canadian characteristics.

Thus, maple-leaves take the place of laurel leaves on the cap-bag and sword-buckles, and the word CANADA is inscribed between the crown and anchor. Shoulder-straps with the word Canada on them are worn, and the word Canada is also inscribed between the crown and anchor on all the buttons. The sword-hilt is surmounted by a beaver's head instead of a lion's head, and the proper coat-of-arms of the Dominion (the arms of Ontario, Quebec, Nova Scotia and New Brunswick, quarterly) inscribed upon the blade. Instead of the loop over the distinction lace on the sleeves which is worn in the Royal Navy, a triangle has been substituted in the Canadian Service. The uniform of the men is the same as in the Royal Navy, with the exception of D.G.S. (Dominion Government Ship) on the caps instead of H.M.S. The steam cruiser "Acadia" is Commander Spain's flagship, with headquarters during the season at Georgetown, P.E.I.; during the winter the Commander's headquarters are at the Marine Department in Ottawa.

The men composing the force are all thoroughly disciplined and drilled; they are armed with magazine rifles, cutlasses and revolvers, and provided also with batons. Each vessel in the fleet carries six and twelve pound brass carronades, and a regular system of drill is carried on. Instruction is now going on in day and night signalling, and each vessel will shortly be provided with trained signalmen.

The following is a list of the vessels comprising Commander Spain's fleet, the Marine vessels being also included.

managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The Principal must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of \$400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 35 Collegiate Institutes and 94 High Schools, with 23,055 pupils, in Ontario in 1893.

Public Schools.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,954 Public (including separate) Schools, with 481,068 pupils, in Ontario in 1893.

Educational Museum.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

Total Number of Educational Institutions

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1893, was 6,089 attended by 506,000 pupils, and expending \$5,233,000 in their support.

The Independent Order of Foresters.

(ASSESSMENT SYSTEM.)

THIS Fraternal Benefit Order was founded in Newark, New Jersey, on the 17th June, 1874, and extends all over the northern portion of the United States and Canada, and is now rapidly spreading throughout Great Britain and Ireland. The system of government adopted by the Order is not only thoroughly democratic but simple in the extreme. The government is vested in a Supreme, and in the High and Subordinate Courts scattered throughout its jurisdiction.

The Supreme Court is not only the legislative but it is also the Supreme governing body of the Order, and is the final court of appeal in all cases. It is composed of its officers who are elected or appointed at each regular biennial session thereof, and the representatives elected by the High Courts in the various States and Provinces of the United States and Canada, and in the British Isles. Seven of the chief officers of the Supreme Court form the **Executive Council**, who in the *interim* of the Sessions of the Supreme Court, manage the affairs of the Order in accordance with the provisions of its Constitutions and Laws.

The High Courts, which correspond to Grand Lodges of other Societies, have control of the Order in each Country, Province or State, and are composed of its officers who are elected annually or biennially as the case may be, and the representatives elected by the Subordinate Courts within their respective territorial jurisdictions. At the present time there are five High Courts in the British Isles, seven in the Dominion of Canada, and thirteen in the United States, extending from Maine to California.

The Subordinate Courts are located in any healthy locality where a sufficient number of good men are found, willing to join hands for the mutual protection of themselves and families, and apply for a Charter for a Court. These Subordinate Courts are controlled and managed by the members thereof. They are excellent educational centres for the instruction and the training of the members in the conduct of public business and in habits of thrift and self-reliance. From them representatives are sent to the various High Courts, which elect, as already stated, the brethren who constitute the Supreme Court. It is pre-eminently an Order of the people, by the people, for the people,

The I. O. F., from its organization in 1874 to the year 1881, was like all the older Societies, a Mortuary Assessment Organization. In 1881 the present leaders came into power, who changed its Constitutions and Laws and placed the Order on its present foundation. From that time it has enjoyed a continuous and a constantly increasing prosperity.

Phenomenal Growth and Prosperity.

The following tabulated figures will show the marvellous increase of the Order since its re-organization :

MONTH.	YEAR.	NO. OF MEMBERS.	BALANCE IN BANK.	MONTH.	YEAR.	NO. OF MEMBERS.	BALANCE IN BANK.
January,	1882.....	1,018	\$3,555 47	January,	1891.....	24,466	\$283,967 20

"	1889.....	11,618	117,599 88	October,	"	64,889	1,079,370 70
"	1890.....	17,026	188,130 86				

Though the I. O. F. has already paid over two millions and a half dollars in benefits, as well as a large sum for management expenses, yet it will be noted that the accumulated funds of the Order stood, on the 1st of October at over **One Million Seventy-Nine Thousand Dollars.**

Another remarkable circumstance is that the death rate of the Order for 1893, being the *twentieth year* of its history, was only 5.47 per 1,000, showing the great excellence of the I.O.F. system of medical selections.

In addition to the Social and Fraternal Benefits which a Forester enjoys by virtue of his membership in this great Fraternal Order, he secures for himself and family the following

Material and Substantial Benefits.

1.—Free Medical Attendance. 2.—Total and Permanent Disability of \$250, \$500, \$1,000 or \$1,500. 3.—A benefit for your old age of \$50, \$100, \$200 or \$300 a year. 4.—A Benefit payable on reaching your expectation of life, of \$500, \$1,000, \$2,000 or \$3,000. 5.—Sick Benefits of \$3 to \$5 per week. 6.—Funeral Benefit, \$50. 7.—Mortuary Benefit of \$500, \$1,000, \$2,000 or \$3,000.

The cost of admission to the Order in most Courts is only \$7.00 to \$9.00 besides the medical examination fee, which is \$1.50 if you are taking only \$500 or \$1,000 of Mortuary Benefit, and \$2.00 if taking \$2,000 or \$3,000.

To secure the benefits set forth in Nos. 2, 3 and 7, each member pays a small rate at age of entry. These rates may be paid monthly, quarterly, semi-annually or annually, in advance, at the convenience of the member.

The following are the monthly rates in the Ordinary Class for some of the principal ages, beginning at 18 years of age, which is the minimum age for admission, while fifty-four years is the maximum age for admission.

AGE.	\$500	\$1,000	\$2,000	\$3,000	AGE.	\$500	\$1,000	\$2,000	\$3,000

35	'39	'78	1 '56	2 '34	54	1 '50	3 '00	6 '00	9 '00

There are no Assessments at Death.

MAP OF SAULT STE. MARIE AND VICINITY.

The canal is cut through a narrow neck of land immediately to the west of the town at the point on the map marked "St. Mary's Falls."

THE CANADIAN SAULT STE. MARIE SHIP CANAL.

By J. J. KEHOE.

The construction of the Ship Canal on the Canadian side of the River St. Mary, which the past year has seen satisfactorily carried out, is an event deserving of more than a passing notice, the work, apart from other considerations, being of the highest importance to the commercial interests of the country, while the engineering features are on a scale which command respect from the professional standpoint, comprising as they do the largest single lock at present in existence.

The importance to Canada of the possession of an independent means of water communication with her great territories to the west of Lake Superior had become so accentuated that the construction of this canal was commenced, and has been continued with an unanimity on the part of politicians of all shades and on the part of all classes of the people, and with an ungrudging financial provision, which show how thoroughly it was regarded as a national need and one to be met with all possible expedition.

The contracts for the canal and lift-lock were let in November, 1888, and those for the entrance works in January and March, 1889. The water was first admitted to the lock on the 25th of September, 1894, in the presence of the Honourable John Haggart, Minister of Railways and Canals, and Mr. Collingwood Schreiber, C.M.G., the Chief Engineer of the Department, and the first boat, the tug "J. R. Booth," belonging to the contractors of the canal and lock, Messrs. Hugh Ryan & Co., passed through on the 12th of October.

The work has comprised the cutting of a canal through St. Mary's Island—the point where the River St. Mary, which discharges the waters of Lake Superior, passes a rock formation by a series of rapids—and the construction of a lift-lock to overcome the difference of level, 18 feet at ordinary stages, in the waters above and below the island, together with the entrance piers and approaches. The total length of the canal across the island is 4,000 feet, or from the eastern to the western extremities of the piers, 6,000 feet, or 1 and $\frac{1}{4}$ mile.

With its approaches the total distance is about 18,300 feet, or 3 $\frac{1}{2}$ miles.

The scheme was carefully considered with a view to affording the maximum of facility to the immense and ever increasing traffic of the lakes, and as finally adopted and carried out presents the following general features:

The lock chamber is 900 feet in length; in width 60 feet, and with a depth of water sufficient to pass vessels of 20 feet draught at the lowest recorded stage of water below the lock. By the adoption of these dimensions the great advantage is obtained that if two or more vessels are locked at the same time they will lie one behind the other, and can pass through on a straight course with the centre of the canal, thus avoiding the delays and risks attending their lockage by side.

Under the 'oorings of the lock chamber four large culverts or waterways have been constructed for the admission and withdrawal of water through 140 gratings in the floor.

The main gates are 45 feet in height, each leaf being 37 feet wide, and weighing about 86 tons.

The lock is protected by guard gates at both the upper and lower entrances.

Two large turbine wheels will be used for operating the general machinery in connection with the lock. These wheels will receive their water supply through a steel tube 6 feet 8 inches inside diameter, carried along the back of the north wall of the lock. They will have a capacity of at least one hundred and fifty horse power each.

The main object in view in the provision of two wheels of so great power is the operation of two large pumps capable of pumping 16,000 gallons per minute each (the two equalling 32,000 gallons per minute). By their means, it is calculated that the lock can be laid dry, should the necessity arise, in between 6 and 7 hours.

These wheels will be coupled when pumping, but as a rule will be run separately, and so as to produce a steady motion. One wheel is specially allotted to the electric machines, viz.: generator, arc-light dynamo for lighting the canal, and incandescent dynamo for house (or inside) lights; the other turbine is for shop and general purposes.

The valves for filling and discharging the lock, and also the gates will be operated by large screw power machines operated by gearing driven by electric motors supplied by the generator by sub-marine cables.

It is believed that the time within which vessels can be locked through will be greatly lessened by the above facilities.

After a vessel has taken her position in the lock, the calculated time required to open or close a pair of gates being 50 seconds, and the time for opening the valves 50 seconds, it is calculated the lock will fill in 9 minutes, and the upper gates opening in 50 seconds, the vessel will be ready to move out of the lock in 11 minutes and 30 seconds. As the lock will be emptied in 7½ minutes, the down lockages will be accomplished in 10 minutes.

The lock is of massive masonry, of which 63,000 cubic yards have been built.

The canal proper has a surface width at low water level of 152 feet, and a bottom width of 145 feet. It will accommodate vessels of 20 feet draught at extreme low water. The river channel above and below, however, requires to be dredged out to afford this depth, the present proposed limit being 18 feet.

At a point about 1,500 feet above the lock it is crossed by a swing railway bridge over which the railway systems of Canada and the United States find accommodation.

The estimated cost of the whole of the works was \$1,000,000. Up to the 30th of June, 1894, the total payments aggregated \$2,791,873.74.

The following statistics for the season of navigation of 1891, taken from the report of the Chief Engineer U.S. Army, will indicate the extent of the traffic between Lake Superior and the lower lakes: they apply, of course, to the American canal on the south of the river. The number of vessels, etc., passed through was 10,191, in 4,981 lockages, carrying 8,888,759 tons of freight and 26,190 passengers: the total value of the freight being \$128,178,208.51 against 102,214,948.70 in the season of 1890.

The total number of registered craft using the canal during the season was 952, of which 396 were steam. There were 101 steam vessels carrying 2,000 tons and upwards; the largest single cargo carried was 3,136 tons. The total value of all registered vessels using the canal during the season is set down at \$34,066,800 against a total valuation in 1890 of \$29,635,500, and in 1887 of \$19,773,950.

The traffic shown by the above figures has grown up since the year 1855, when the first locks were constructed; and with the development of the unlimited agricultural and mineral resources of the vast tracts of land lying to the west, north and south of the Sault Ste. Marie, there is no question but that this traffic must extend at an ever-increasing ratio. The needs of half a continent may, at no distant day, imperatively demand lock accommodation at this point compared with which the present provision, large as it is, will appear insignificant.

Admiralty Division.

In pursuance of the powers given by "The Colonial Court of Admiralty Act, 1890," the Exchequer Court of Canada is declared a Colonial Court of Admiralty. (See 54-55 Vic., Cap. 29.)

The Admiralty Court has all rights and remedies in all matters (including cases of contract and tort and proceedings *in rem* and *in personam*) arising out of or in connection with navigation, shipping, trade and commerce, which may be had or enforced in any Colonial Court of Admiralty, under "The Colonial Court of Admiralty Act, 1890," throughout Canada and the waters thereof, whether tidal or non-tidal, or naturally navigable or artificially made so.

Admiralty business may be transacted at the office of the Exchequer Court at Ottawa, or at the local registry offices.

There are Admiralty Districts presided over by Local Judges in Admiralty as follows:—

(a) The Province of Quebec constitutes the District of Quebec with Registry at the City of Quebec.

(b) The Province of Nova Scotia constitutes the District of Nova Scotia with Registry at the City of Halifax.

(c) The Province of New Brunswick constitutes the District of New Brunswick with Registry at the City of St. John.

(d) The Province of Prince Edward Island constitutes the District of Prince Edward Island with Registry at the City of Charlottetown.

(e) The Province of British Columbia constitutes the District of British Columbia with Registry at the City of Victoria.

(f) The Toronto Admiralty District has its Registry at the City of Toronto, the limits being from time to time fixed by the Governor-in-Council.

The Law Society of Ontario.

The Law Society was first established in 1797 by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under Revised Statutes of Ontario, c. 145, 1887, the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

The Supreme Court of Judicature for Ontario.

COURT OF APPEAL FOR ONTARIO.—Constituted for the hearing of appeals in civil cases from the Queen's Bench, Chancery, and Common Pleas Divisions of the High Court of Justice, and from the County Courts; and the Division Courts also in cases defined as to amount, and appeals from criminal cases from the Queen's Bench, Common Pleas, and County Courts. From the judgment of this Court an appeal lies, at the option of litigants, either to the Supreme Court of the Dominion, or to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. The Judges of this Court, may be placed on the rota for the trial of Election petitions, with the Justices of the High Court, who as *ex-officio* Judges of this Court, choose from their number a Judge or Judges to sit in Appeal in case of there being a vacancy in this Court, or if, from illness or some other cause, one of the Judges of the Court is unable to be present, or is under any legal disqualification to hear an appeal. *Chief Justice of Ontario*—Hon. John Hawkins Hagarty, D.C.L. (\$6,000). *Justices of Appeal*—Hon. G. W. Burton, Hon. F. Osler, Hon. James Maclellan (\$5,000 each). *Registrar*—Alexander Grant. *Usher and Messenger*—E. Oliver.

COURT OF APPEAL.—This Court holds its sittings at such time and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the times now fixed being the first Tuesday in March and September, and the second Tuesday in January, May and November; notice of the holding of such sittings being given according to the usual practice.

High Court of Justice for Ontario.

QUEEN'S BENCH DIVISION.—The jurisdiction of this Division extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also (with the inquest of twelve good and lawful men in the cases provided for) try all issues of fact, and give judgment, and award execution thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. *Chief Justice*—Hon. J. D. Armour (\$6,000). *Members of the Queen's Bench Division*—Hon. W. G. Falconbridge, Hon. W. P. R. Street (\$5,000). *Registrar*—James S. Cartwright. *Clerks*—P. J. Brown, C. O. Strange, M. B. Black. *Crier and Usher*—Robt. Lawson.

CHANCERY DIVISION.—This Division has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy

at law. *Chancellor*—Hon. John A. Boyd (\$6,000). *Members of the Division*—Hon. R. M. Meredith, Hon. Thos. Ferguson and Hon. Thos. Robertson (\$5,000 each). *Special Examiners*—W. D. Gwynne, John Bruce, F. Arnoldi, L. B. Young, Geo. A. Boomer and Henry Wickham. *Registrar*—G. S. Holmested. *Assistant Registrar*—A. F. McLean. *Clerk of Records and Writs*—G. M. Lee. *Docketing Clerk*—Geo. C. Sellery. *Copying Clerk*, Alex. MacGregor. *Entering Clerk*—W. O'Neil. *Usher*—John G. O'Donohoe. *Housekeeper*—Mrs. Sutherland. *Messenger*—D. Sutherland.

COMMON PLEAS DIVISION.—This Division has the same powers and jurisdiction as a Court of Record, as the Queen's Bench Division. *Chief Justice*—Hon. Wm. Ralph Meredith (\$6,000). *Members of the Division*—Hon. John E. Rose Hon. Hugh MacMahon (\$5,000 each). *Registrar*—M. B. Jackson. *Chief Clerk*—M. J. Macnamara. *Clerks*—Andrew James Elliot, R. F. Killaly. *Crier and Usher*—James Alexander.

All Divisions of the High Court have now concurrent jurisdiction under the Judicature Act, 1881.

SITTINGS OF THE QUEEN'S BENCH AND COMMON PLEAS DIVISIONS.—Hilary sittings begin first Monday in February and ends Saturday of the ensuing week; Easter sittings begin third Monday in May and ends Saturday of the second week thereafter; Michaelmas sittings begin third Monday in November and ends Saturday of the second week thereafter. The Queen's Bench and Common Pleas Divisions have power also, at their discretion, to hold sittings in banco in time of vacation (except long vacation), by virtue of a rule or order of the Court, respectively to be made in or out of term, for the hearing of such special cases or rules for new trials as shall be named in a list to be attached to any such rule or order, and for giving of judgments in cases previously argued, and for disposing of such other business as the Court in its discretion shall see fit. For list of places and times see page 267.

LAW CIRCUITS.—*Sittings for Hearing of Actions*.—In the Counties of York, Wentworth, Carleton and Middlesex, there is held a third such Court in every year, in the vacation between Michaelmas and Hilary Terms; and in the County of York there is held a fourth such Court, between Easter Term and the first day of July. Whenever in any year the judges may determine that it is not necessary to hold same such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery, and the Assizes for any County are not put an end to by the commencement of Term, but may continue and be held during Term, subject to special rules in such case for moving against the verdict or for new trials.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of Her Majesty's Council learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

CHANCERY SITTINGS.—*Sittings for the rehearing of causes* are held on the 3rd Thursday in February, the last Monday in May, and first Thursday in December.

WEEKLY SITTINGS.—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge on Mondays or Fridays. Chamber business, motions first, appeals afterwards, on Tuesdays, Wednesdays and Thursdays, Court business after 1st Jan., 1895. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge.

CHAMBERS.—Chambers are held each day for such business relating to actions as may be transacted by a single judge out of Court. The Master in Chambers is empowered to obtain the assistance of the Registrar of the Queen's Bench Division or of any Official Referee to sit with or for him. *Master in Chambers*—John Winchester. *Clerks*—F. Arnoldi, A. Y. Blain, and Miss A. B. G. Cull.

LONG VACATION extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to land in Ontario, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees, or assignees. *Sittings at Toronto, first Monday in January and July in each year.* *Judges*—The Judges of the Superior Court (ex-officio), others appointed by commission. *Clerk of Commissioners*—C. Ansell Steward.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually on or before the third day of Michaelmas sittings and severally elect, by a majority of votes, a Judge from their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

MARITIME COURT OF ONTARIO.—By 54-55 Vic. Cap. 29 this court has been abolished except as to pending business. *Judge*—J. E. McDougall, Q.C. *Registrar*—John Bruce. *Marshall*—Wm. Boyd.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county, for the trial of issues of fact, semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction, and (except in the County of York) a sitting for the trial of issues without a jury shall be held in each county on the first Tuesday in April and October in each year. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions may, with their own consent, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COUNTY COURT TERMS.—The several County Courts in Ontario hold four sittings in each year, commencing respectively on the second Monday in the month of January, and the first Monday in the months of April, July, and October, except the County of York, which commences on the first Monday in April, and the second Monday in January, June and October, and ending on the Saturday of the same week, unless extended by order of the Judge.

BOARD OF COUNTY JUDGES.—*Chairman*—S. J. Jones, County Brant. *Members*—D. J. Hughes, County Elgin; E. J. Senkler, County Lincoln; H. S. McDonald, Counties Leeds and Grenville; W. W. Dean, County Victoria.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir F. A. Robinson, Bart., *pro tem.* *Assistant*—Alex. J. R. Duff.

DIVISION COURTS are held for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt on contract where the balance claimed is over \$100 and under \$200 and the original amount was ascertained by the signature of the defendant, and to \$100 in other cases of debt, subject in some cases to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed \$400; injuries or torts to personal chattels amounting to \$60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

APPOINTMENT OF JUDGES IN CANADA.

By the British North American Act it is provided that the Governor General shall appoint the Judges of the Superior, District and County Courts, except those of the Courts of Probate in Nova Scotia and New Brunswick, and that their salaries, allowances and pensions shall be fixed and provided by the Dominion Parliament. It is also provided that the Judges of the Courts of Quebec shall be selected from the Bar of that Province, and there is a similar provision for the selection of the Judges in Ontario, Nova Scotia and New Brunswick, until the laws relative to property and civil rights and the procedure of the courts in those Provinces are made uniform.—*Statistical Record.*

Close Season for Game in Ontario.

The close season for Deer, Elk, Moose, Reindeer and Caribou is from 15th Nov. to 20th Oct. of the following year, but no Moose, Elk, Reindeer or Caribou must be hunted or killed before 25th October, 1895. No dogs must be allowed to run Deer in the close season. No person must kill more than two Deer in the season. Hunting or killing Deer by what is known as "crusting" or while they are "yarding" is forbidden. No common carrier or other person shall transport or have in possession for that purpose, any deer, or raw skin thereof, save only from 20th Oct. to 22nd Nov. in each year, unless accompanied by an affidavit that same was taken during the hunting season.

The close season for Grouse, Pheasants, Prairie Fowl, Partridge, Woodcock, Snipe, Rail, Plover or any other water-fowl or game bird or animal, including black or grey Squirrels and Hares, is from 15th Dec. to 15th Sept. in the following year. For Quail or wild Turkeys from 15th Dec. to 15th Oct. of the following year, but no wild Turkeys must be killed before 15th Oct., 1897, and no prairie fowl or English or Mongolian pheasants before 15th Sept., 1897.

The close season for Swans and Geese is from 1st May to 15th Sept., and for Ducks of all kinds from 15th Dec. to 1st Sept. following. No person shall kill more than 400 Ducks during the season.

No wild fowl must be killed or shot at between half an hour after sunset and half an hour before sunrise, nor on the Lord's Day.

No Snipe, Woodcock or Partridge shall be sold or pur-

chased before 15th Sept., 1897. No Quail or Wild Turkey shall be sold or purchased before 15th Oct., 1897.

No beaver or otter shall be hunted, taken, killed, or had in possession between 1st April and 1st Nov., nor trap set for them during that period, and no muskrat between 1st May and 1st Jan. But no beaver or otter shall be hunted, taken or killed before 1st Nov., 1897.

No person except residents of Ontario and Quebec shall be entitled to hunt without first procuring a license from the Provincial Secretary, the cost of which is \$25.

The Game Laws do not apply to Indians or to settlers in unorganized townships or territory not divided into townships, who kill game for food.

Synopsis of Fishery Laws.—Net fishing of any kind is prohibited in public waters, except under Leases or Licenses. The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays. A general weekly Close-time is provided in addition to special close seasons. The use of Explosive or Poisonous substances for catching or killing fish is illegal. The use of firearms for killing fish is prohibited. Mill-dams must be provided with efficient fish passes. Models or drawings will be furnished by the Department of Marine and Fisheries on application.

The above enactments and close-seasons are supplemented in special cases, under authority of the *Fisheries Act*, by a total prohibition of fishing for stated periods. All communications relating to Fisheries should be addressed to the Deputy Minister, Department of Marine and Fisheries, Ottawa.

Safe Business Rules.

Business men, in business hours, attend only to business matters. Social calls are best adapted to the social circle. Make your business known in few words, without loss of time. Let your dealings with a stranger be most carefully considered, and tried friendship duly appreciated. A mean act will soon recoil, and a man of honor will be esteemed. Leave "tricks of trade" to those whose education was never completed. Treat all with respect, confide in few, wrong no man. Be never afraid to say no, and always prompt to acknowledge and rectify a wrong. Leave nothing for to-morrow that

should be done to-day. Because a friend is polite, do not think that his time is valueless. Have a place for every thing, and every thing in its place. To preserve long friendship, keep a short credit; the way to get credit is to be punctual; the way to preserve it is not to use it much. Settle often; have short accounts. Trust no man's appearances; they are often deceptive, and assumed for the purpose of obtaining credit. Rogues generally dress well. The rich are generally plain men. Be well satisfied before you give a credit that those to whom you give it are safe men to be trusted

LIFE INSURANCE.

There are at present thirty companies engaged in the business of life insurance in Canada. Of these twelve are Canadian, eight British, and ten American. During the year 1893, which is the last one of which we have returns, there was \$45,202,847 new insurance taken, which was greater by \$582,834 than in 1892.

The total amount of insurance in force at the end of 1893 was \$295,622,722 divided as follows:—

Canadian companies	\$167,475,872
British do	33,543,884
American do	94,602,966

\$295,622,722

During the year the amount of insurance terminated by natural causes, that is by death or maturity was \$4,935,731, while the amount surrendered or lapsed was \$23,393,423.

The premium income during 1893 was as follows:—

Canadian companies	\$5,476,058 91
British do	1,073,542 65
American do	3,403,231 64

\$9,952,833 20

The total amount paid to policy-holders during 1893 was as follows:—

Death claims (including bonus additions)	\$3,139,648 45
Matured endowments do	754,588 72
Annuitants	55,132 32
Paid for surrendered policies	573,287 27
Dividends to policy holders	610,577 25

Total..... \$5,133,234 01

In selecting a company in which to insure one's life, the first consideration should be safety, and economy the second. As the taking of a policy is a matter of importance to most men, they should be sure that the company they are going into is sound financially. Every year there is published by the Superintendent of Insurance at Ottawa a report containing the true financial position of all the different companies, a little study of which will make it plain to any business man.

The following table gives the premiums charged by some of the principal life insurance companies for insuring \$1,000 at different ages. Besides the "straight life" insurance there are other attractive plans given by most of the companies, such as "endowments," "limited payments," "terminal" and "semi-tontine," etc., all of which will no doubt be explained by the enterprising agent, and should be carefully considered in all their bearings by the intended insurer:—

Annual Premiums, at Different Ages, with Profits.

The following table gives the annual premiums to secure \$1,000 payable at death with profits at the ages given:—

Many other plans of Life Insurance are presented by the various companies, each possessing their own peculiar advantages. The two leading schemes beside the regular straight life plan are the ten, fifteen and twenty payment Life and the Endowment policy. Under the first of these arrangements the insurer pays a premium for ten, fifteen, or twenty years as the case may be, and his policy is then paid up. He has nothing more to pay. In the event of his death occurring any time after the first premium is paid the amount of his policy is paid to his heirs, or as he may direct. After the term of ten years the profits accruing are either added to the policy or drawn out in annual dividends.

Under the **Endowment Plan** the insurer pays the premium for ten, fifteen, twenty or twenty-five years according to the term of his policy, and at the end of that term the amount of his policy is paid to him if he survives. Should his death occur at any time after the term, the amount is paid to his heirs just the same as in ordinary life policy. The advantage of an arrange-

ment of this kind is that a man may make provision for his old age and by paying a slightly higher premium make sure of a sum coming to him when perhaps he is unfitted for business, at the same time his life is insured should he die previously.

The following table gives the rates of some of the principal companies under the plans outlined above.

In thus quoting rates it is only fair to state that *Cheapness* is not the only or the principal thing that an intending insurer should look for. Among other things to be considered are, policy advantages and profits, extended insurance, etc.

Many other attractive plans of insurance are devised by different companies and the editor has been requested to represent some of them to the advantage of individual companies. This would be manifestly unfair in an article such as this, and we can only direct our readers to our advertising pages, assuring them that all companies represented there are well worthy of their confidence.

PAILS

BUTTER TUBS

MILK PANS, WASH BASINS

CUSPIDORS, ETC., ETC.

THESE useful articles, made of the strongest wood fibre, are clearly shown to be actual necessities in the household, as evinced by their enormous sales, always increasing.

Their peculiar advantages are:

- Will not shrink or swell.
- Will not taint milk or any liquid.
- Cannot leak, water soak, or rust.
- Have no hoops to rust or drop off.
- Being seamless, bottom cannot drop out.
- Is lighter than the wooden article.
- Imparts no taste to its contents.
- Is proof against kerosive, vinegar, and ordinary acids.

Railways in Canada.

Canada has 127 railways. Twenty-four of these have been amalgamated and form the Grand Trunk Railway system. The consolidation of 21 others has produced the Canadian Pacific Railway system. The remaining 82 are separate organizations. Of these 82, four had no finished mileage on the 30th June, 1893, but were building 37 miles; two are bridge companies, with 3 3/4 miles of rails; one is a tunnel, with 2 1/4 miles of rails, and one is an electric railway nearly 12 miles long—the Niagara Falls Park and River Electric Railway—leaving 74 railways besides the Canadian Pacific Railway, the Grand Trunk and the Intercolonial.

The mileage (track laid) of these several organizations is:

Canada Pacific	5,784.70
Grand Trunk	3,168.50
Intercolonial	1,383.60
Other railways	4,955.17
Electric Railway (one)	11.85
Bridges and tunnel	6.08

Total

15,319.90

As a rule, the railways of Canada are built with a gauge of 4 feet 8 1/2 inches. The exceptions to the rule are the Carillon & Grenville, with a gauge of 5 feet 6 inches, the Prince Edward Railway with a gauge of 3 feet 6 inches, and the Lake Temiscamingue and the Alberta Coal Railways, each with a gauge of 3 feet.

THE NEW ROUTE TO THE FAR-FAMED SAGUENAY

AND THE ONLY RAIL LINE TO THE PICTURESQUE
Summer Resorts North of Quebec

Through the Magnificent Scenery of the Laurentides
THE CANADIAN ADIRONDACKS.
Express trains each way daily, to and from ROBERVAL, LAKE ST. JOHN and CHICOUTIMI.

Parlor and Sleeping Cars, Magnificent Scenery.

Good Hotel accommodation at Lake St. Joseph, Lake Edward, and Roberval. Excellent fishing for trout and fresh water salmon. The finest Wheat lands in the Province of Quebec are now offered for sale by the Provincial Government in the Lake St. John Territory. For particulars see Folders.

The HOTEL ROBERVAL, Roberval, has been greatly enlarged and now has accommodation for 300 guests. A new and commodious hotel—THE ISLAND HOUSE—has been built on an island in the Grand Discharge fishing grounds, and is run in connection with Hotel Roberval. These Hotels control the fishing rights of Lake St. John and tributaries, together with the Grand Discharge, and ten miles of the Saguenay River, making these the most attractive fishing grounds in North America, covering an area of 20,000 square miles of fishing privileges, all of which are free to the guests of the Hotels.

A commodious steamer, the "Mistassini," runs daily during the tourist season between Roberval and the Island House, Grand Discharge, thirty miles distant.

The Chicoutimi extension, extending from Lake St. John to Chicoutimi, offers to tourists a new round trip, namely, from Quebec to Lake St. John, and thence to Chicoutimi by rail, and down the Saguenay (by daylight) and back to Quebec by water. It is no exaggeration to say that this trip, for grandeur of scenery, is unequalled in America.

WALKDEN'S CELEBRATED WRITING INKS SEALING WAX AND MELANYL.

MANUFACTURED BY

COOPER, DENNISON, WALKDEN, LTD.
7 & 9 St. Brides Street, London, E.C.

Walkden's Blue-Black Writing Fluid.

Warranted made from the purest material. Is especially adapted for general Commercial use. It writes at first a splendid Blue Color, and turns to an intense and very durable Black. It does not get thick or deposit sediment, and is the best Ink for all climates.

Walkden's Blue-Black Copying Fluid.

Flows freely and pleasantly from the pen. Will give three good copies at one impression, or one a long time after writing. It may be used for all purposes.

Walkden's Brilliant Scarlet Ink.

A very beautiful preparation which does not penetrate the paper like some Red Inks. It is free from Acid, and may be used with Steel Pens.

MELANYL—An Indelible Marking Ink.

Expressly designed to avoid the use of hot irons, or the exposure of articles to the fire after being marked.

Melanyl assumes on the fabric a most intense Jet Black Colour after Washing, and is absolutely indelible.

Walkden's Brand Sealing Wax. Finest Wax in the Market.

And is specially prepared from the finest materials. Customers' names stamped on letter-wax without extra charge.

Webster's International Dictionary

Grand For Ready Reference
In Office, School, or Home.

A College President writes: "For ease with which the eye finds the word sought, for accuracy of definition, for effective methods in indicating pronunciation, for terse yet comprehensive statements of facts, and for practical use as a working dictionary, 'Webster's International' excels any other single volume."

The diacritical marks for indicating the sounds of letters are so plain and intelligible as to be easily understood by old and young. Nearly all schoolbooks use them.

"It is The One Great Standard Authority

... the perfection of dictionaries;" so writes Justice Brewer of the United States Supreme Court, who voices the general sentiment.
